Chair Armendarez opened the Public Hearing.

Alejandro Rico, Associate Planner, presented the staff report.

No written correspondence was received.

Commissioner Sanchez asked whether the truck sales operation would include mechanical repairs. Associate Planner Rico clarified that two Conditional Use Permits are proposed—one for truck sales and another for repairs—and confirmed that the repair permit is limited to collision work only, excluding mechanical repairs.

The applicant, Jose Carcelan, stated that he read and agreed to the Conditions of Approval, and described his project as a family-run truck sales and repair business that includes both incidental and heavy repairs, primarily servicing large fleet vehicles. He added that he currently operates another business on the west side of Cherry Avenue, and that this location is better suited to their needs.

No one spoke in favor or in opposition.

The Public Hearing was closed.

PH-B Master Case No. 22-000011-R3: Tentative Parcel Map No. 20761 (TPM No. 22-000033-R2), Minor Use Permit No. 25-0006, and Design Review No. 22-00005-R2 - A request for site and architectural approval for a proposed revision to a previously approved commercial center. Revisions include the reconfiguration of the site from five parcels to four parcels and the relocation of the carwash building, vacuums and canopies to the northwest portion of the site, pursuant to a previously approved Mitigated Negative Declaration for the Midland Plaza project in accordance with CEQA Guidelines Sections 15162 through 15164 et seq.

Chair Armendarez opened the Public Hearing.

No written correspondence was received.

Cecily Session-Goins, Associate Planner, presented the staff report and noted several revisions to Conditions of Approval, including clarification in Section 6 that approval of the modified project supersedes prior entitlements, revision to Condition No. Planning Condition 15, Page 23 to require utility rooms and enclosures be constructed with durable,

compatible materials, and clarification of fire flow requirements (Condition No. 33, Page 25) as approved by the Fire Department.

Vice Chair Quintana requested clarification on the change to Condition No. 33, page 25; staff explained it reflects a reduction in required fire flow from 2,000 to 1,500 and an adjustment to hydrant spacing from 300 to 312 feet, as approved by the Fire Department. Commissioners Sanchez inquired about lighting and the absence of a night rendering; staff confirmed the site will include comprehensive lighting throughout buildings, parking areas, and canopy, with tower illumination likely from interior lighting.

The applicant, Daniel Goalwin stated that he read and agreed to the Conditions of Approval and explained the project was revised due to market conditions, specifically the lack of a pharmacy tenant, leaving a portion of the site available for potential future development. In response to Commissioner Sanchez input, the applicant confirmed the corner tower will be illuminated from within to enhance visibility. The applicant also indicated an anticipated construction start within the year.
