

RESOLUTION NO. PC 2025-____

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF FONTANA APPROVING TENTATIVE TRACT MAP NO. 20686 (TPM NO. 24-013) AND DESIGN REVIEW NO. 24-024 TO SUBDIVIDE APPROXIMATELY ONE (1) ACRE INTO 12 LOTS AND FOR THE SITE AND ARCHITECTURAL APPROVAL OF A NEW RESIDENTIAL DEVELOPMENT CONSISTING OF 12 SINGLE-FAMILY DWELLINGS AND ASSOCIATED IMPROVEMENTS LOCATED ON THE WEST SIDE OF LAUREL AVENUE, SOUTH OF ARROW BOULEVARD (APNS: 0246-121-71 AND -72), PURSUANT TO A CATEGORICAL EXEMPTION IN ACCORDANCE WITH CEQA GUIDELINES SECTION 15332 AND DIRECTING STAFF TO FILE A NOTICE OF EXEMPTION.

WHEREAS, the project site is located on the west side of Laurel Avenue, south of Arrow Boulevard and identified as Assessor's Parcel Numbers ("APNs") 0246-121-71 and -72 ("Project Site"), was annexed from San Bernardino County into the City of Fontana on September 18, 2006; and

WHEREAS, on June 26, 2024, the City of Fontana (City") received a Tentative Tract Map (TTM No. 24-013) and Design Review (DRP No. 24-024) from NewBridge Homes ("Applicant"), for the development of 12 single-family dwellings on 12 new parcels, at the Project Site; and

WHEREAS, the Project site has a General Plan Land Use designation of Medium Density Residential (R-M) and is located within the Medium Density Residential (R-2) zoning district, which allows for such projects; and

WHEREAS, pursuant to the California Environmental Quality Act ("CEQA"), the Project is Categorically Exempt pursuant to CEQA Guidelines Section No. 15332 (Class No. 32, Infill Development) and Section No. 3.22 (Categorical Exemption) of the 2019 Local Guidelines for Implementing the CEQA as the project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations; the project development occurs within city limits on a project site of less than five acres substantially surrounded by urban uses; the approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; the site can be adequately served by all required utilities and public services, and none of the exceptions in CEQA Guidelines Section 15300.2 apply; and

WHEREAS, the City wishes to protect and preserve the quality of the life throughout the City, through effective land use and planning; and

WHEREAS, the Conditions of Approval are attached hereto as **Exhibit "A"** for Tentative Tract Map No. 24-0013 and **Exhibit "B"** for Design Review No. 24-0024; and

WHEREAS, all of the notices required by statute and the Fontana Municipal Code

(FMC) have been given as required; and

WHEREAS, the owners of property within 660 feet of the Project Site were notified via public hearing notice mailer prior to the Public Hearing; and a notice of the public hearing was published in the newspaper on April 4, 2025, and simultaneously displayed at City Hall and at the Project Site; and

WHEREAS, on April 15, 2025, a duly noticed public hearing on TTM No. 24-0013 and DRP No. 24-0024, was held by the City of Fontana Planning Commission (“Planning Commission”) to consider testimony and evidence presented by the Applicant, City staff, and other interested parties; and,

WHEREAS, on April 15, 2025, the Planning Commission carefully considered all information, evidence and testimony presented at its public hearing on TTM No. 24-0013 and DRP No. 24-0024; and

WHEREAS, all other legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, the Planning Commission RESOLVES as follows:

Section 1. Recitals. The above recitals are true, correct and incorporated herein by this reference.

Section 2. CEQA. The Planning Commission hereby determines that the Project is categorically exempt pursuant to Section No. 15332 (Infill Development) of the California Environmental Quality Act and Section No. 3.22 (Categorical Exemption) of the 2019 Local Guidelines for Implementing the California Environmental Quality Act (CEQA). The Project site is considered Infill as: (1) The Project is consistent with the Medium Density Residential (R-M) General Plan Land Use Designation and the Medium Density Residential (R-2) zoning designation; (2) The Project Site is less than five (5) acres and is substantially surrounded by urban uses; (3) The Project Site has previously been developed and is not within any known sensitive or threatened habitat area; (4) The Project will not have any significant effects related to traffic, noise, air quality, or water quality; and (5) There are adequate public services for the development of the residential project. The Planning Commission further determines that none of the exceptions in CEQA Guidelines Section 15300.2 apply to the Project and directs Staff to file a Notice of Exemption.

Section 3. Tentative Tract Map Findings. The Planning Commission hereby makes the following findings for TTM No. 24-013 in accordance with Section 26-55 “Hearing; criteria for approval” of the Fontana Zoning and Development Code:

Finding No. 1: The proposed map is consistent with the city’s general plan and any applicable specific plan.

Findings of Fact: Tentative Tract Map No. 20686 (TTM No. 24-013) is a request to subdivide two parcels into 12 parcels for the purpose of single-family

development. The parcels are inclusive of an access easement to be used as the vehicular access for the site. This meets the minimum development standards for the R-2 zoning district and the requirements of Minor Planned Unit Developments.

The lots, as proposed, comply with the City of Fontana's Subdivision Sections of the Municipal Code (Chapter 26) and the Zoning and Development Code (Chapter 30). The project is consistent with the General Plan Land Use Designation for the Project Site, which is Medium Density Residential (R-M). The R-M General Plan Land Use Designation allows for a density of up to 12 dwelling units per acre, which is the density of the project. The site is not within any specific plan.

Finding No. 2: The design or improvements of the proposed subdivisions are consistent with the general plan and any applicable specific plan.

Findings of Fact: The design of the proposed subdivision, is consistent with the General Plan and the site is not within a specific plan. Street improvements to Laurel Avenue include curb, gutter, and sidewalks. The street improvements conform to the requirements of the General Plan. This project is required to connect to the City's sewer system. Additionally, this project has been reviewed by the Engineering Department and the San Bernardino County Fire Department and has been determined to be in compliance with all applicable codes and regulations.

Finding No. 3: The site is physically suitable for the type and density of development proposed.

Findings of Fact: The project site, shape and topography is suitable for this type and density of development. The project site is approximately 1.0 adjusted gross acres and accommodates the subdivisions of 12 single-family parcels, including the provision of curb, gutter and sidewalks. The project site is currently developed with one single-family dwelling and is surrounded by single-family dwellings on the north, south and east. Multi-family dwellings are located on the opposite side of Laurel Avenue. All street improvements will be constructed pursuant to applicable building, zoning, and fire code standards.

Finding No. 4: The design of the subdivision or the proposed improvements are not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat.

Findings of Fact: The design of the subdivision and the proposed improvements complies with the City of Fontana's Municipal code requirements, conditions of approval (referenced herein), and will not have any impact on the environment or substantial or avoidable injury to fish,

wildlife, or their habitat. Moreover, the site is completely surrounded by development and would not support sensitive wildlife. This project qualifies for a Categorical Exemption pursuant to Section 15332, (Class No. 32, Infill Development) of the California Environmental Quality Act (CEQA).

Finding No. 5: The design of the subdivision or the type of improvements will not cause serious public health problems.

Findings of Fact: The design of the subdivision complies with the City of Fontana's Municipal Code requirement and the improvements associated with the subdivision such as street, curb, gutter, and sidewalk are required to be constructed and have been design as part of this project pursuant to the Zoning and Development Code and the Engineering Department's requirements. Additional improvements such as water and sewer connect will be completed pursuant to applicable standards. Therefore, this project shall promote public health, safety and welfare of the surrounding community and will not cause public health problems.

Finding No. 6: The design of the subdivision or the type of improvements will not conflict with easements acquired by the public at large for access through or use of property within the proposed subdivision.

Findings of Fact: The design of the subdivision and the associated improvements will not conflict with an access easements acquired by the public. The proposed subdivision will be accessed from Laurel Avenue. Currently there are no other public access easements through or within the Project site.

Section 4. Design Review Findings. The Planning Commission hereby makes the following findings for DRP No. 24-024 in accordance with Section 30-120 "Findings for approval" of the Fontana Zoning and Development Code:

Finding No. 1: The proposal is consistent with the General Plan, Zoning and Development Code, and any applicable Specific Plan.

Findings of Fact: The project is for the construction of 12 single-family dwellings on 12 lots, which is consistent with the General Plan designation for the Project Site, which is R-M. The R-M land use designation accommodates single-family detached and attached housing as well as multi-family residential development.

The project is located within the R-2 zoning district. The single-family residential development will meet all zoning and development standards set forth in the Fontana Municipal Code, including the required density range. Twelve single-family dwellings on a 1.0-acre

site yields a density of 12 dwelling units/acre. This density is within the 5.1 to 12 dwelling units per acre range required by R-2 zoning district. The project is not within a specific plan.

Finding No. 2: **The proposal meets or exceeds the criteria contained in this chapter and will result in an appropriate, safe, and desirable development promoting the public health, safety, and welfare of the community.**

Findings of Fact: The development complies with the City of Fontana Zoning and Development Code. Improvements including sidewalks, drainage, and grading, will provide a safe and well-designed project. Additionally, the development meets all setback, height, landscaping, design, parking, access, and safety requirements.

The site improvements have been reviewed by the City of Fontana Fire, Building and Safety, and Engineering Departments. Street lighting and on-site lighting have been included to provide ample visibility at night. Enhanced landscaping has been incorporated to create an attractive atmosphere on the project site.

Finding No. 3: **The proposal, in its design and appearance, is aesthetically and architecturally pleasing resulting in a safe, well-designed facility while enhancing the character of the surrounding neighborhood.**

Findings of Fact: The project has been designed to enhance and complement the surrounding neighborhood. The architectural theme for the project is described as “Spanish.” The result is a high-quality architectural design appropriate and desirable for the surrounding neighborhood. The development will enhance the character of the surrounding neighborhood through appropriate attention to aesthetics and design.

Architectural relief utilized for the buildings consists of decorative window treatments, decorative lighting, varied roof lines, architectural “pop-outs,” and other features appropriate to the style. The use of a variety of colors and materials such as stucco finish and stone veneer further adds architectural diversity to each building. The project enhances the surrounding neighborhood by incorporating architectural style that complements the surrounding area. Additionally, landscaping will utilize a variety of plants and trees to complement the architecture of the building and the development as a whole. The project has been reviewed by the Engineering, Building and Safety and Fire Departments for safety. During the project review process, the plans were evaluated to ensure that the project is well-designed.

Finding No. 4: **The site improvements are appropriate and will result in a safe, well-designed facility.**

Findings of Fact The development complies with the City of Fontana Zoning and Development Code. Improvements including sidewalks, drainage, and grading, which will provide a safe and well-designed neighborhood.

The Project Site improvements have been reviewed by the Fire, Building and Safety, and Engineering Departments. During the project review process, changes were made to the plans to ensure that the project is a well-designed project. Street lighting and on-site lighting have been included to provide ample visibility at night. Landscaping has been incorporated to create an attractive atmosphere along adjacent parcels.

Section 5. Approvals. Based on the foregoing, the Planning Commission hereby approves DRP No. 24-024 subject to the Findings and the Conditions of Approval attached hereto as “**Exhibit A**”, and TTM No. 24-013 subject to the Finding and Conditions of Approval attached hereto as “**Exhibit B**” and incorporated herein by this reference.

Section 6. Resolution Regarding Custodian of Record: The documents and materials that constitute the record of proceedings on which this Resolution has been based are located at the Planning Department, 8353 Sierra Avenue, Fontana, CA 92335. This information is provided in compliance with Public Resources Code section 21081.6.

Section 7. Certification. The Secretary of the Planning Commission shall certify to the adoption of this Resolution.

Section 8. Effective Date. This Resolution shall become effective immediately upon its adoption.

Section 9. Severability. If any provision of this Resolution or the application of any such provision to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this Resolution that can be given effect without the invalid provision or application.

PASSED, APPROVED, AND ADOPTED by the Planning Commission of the City of Fontana, California, at a regular meeting held on this 15th day of April 2025.

City of Fontana

Idilio Sanchez, Chair

ATTEST:

Resolution PC No. 2025-

I, Joseph Armendarez, Secretary of the Planning Commission of the City of Fontana, California, do hereby certify that the foregoing resolution was duly and regularly adopted by the Planning Commission at a regular meeting thereof, held on the 15th day of April 2025, by the following vote, to-wit:

AYES:

NOES:

CITY OF FONTANA

CONDITIONS OF APPROVAL

PROJECT: Master Case No. 24-047
Tentative Tract Map No. 24-013

DATE: April 15, 2025

LOCATION: The project site is located on the west side of Laurel Avenue, south of Arrow Boulevard (APNs: 0246-121-71 and -72)

PLANNING DEPARTMENT:

1. The rights and privileges granted by this project shall not become effective, nor shall the Applicant commence the use for which this project is granted, until both of the following have occurred:
 - A. All of the improvements, construction, alteration and other work set forth in this project have been completed and have been accepted by the City, as evidenced by the City's issuance of a Certificate of Occupancy or other document evidencing the City's final inspection and acceptance of the work; and
 - B. All other Conditions of Approval imposed by this project have been fulfilled.
2. This Design Review shall become null and void two (2) years from the date of approval, unless the appropriate permits have been obtained and construction, defined as permit obtainment, commencement of construction of the primary building on site, and successful completion of the first Building and Safety Division inspection, has commenced within this period.
3. The Applicant shall defend, indemnify, protect and hold harmless the City of Fontana or its agents, officers, attorneys and employees from any and all actual or alleged claims, actions or proceedings against the City of Fontana or its agents, officers, attorneys or employees to attack, set aside, void, annul or seek monetary damages arising out of any challenge to the Applicant's proposed project or to any approvals of the Planning Commission and/or City Council concerning this project, including but not limited to actions challenging CEQA actions, permits, variances, plot plans, design plans, maps, licenses, and amendments. The City of Fontana shall promptly notify the Applicant of any claim, action, or proceeding and the City of Fontana shall cooperate in the defense.

In the event of any such third-party action or proceeding, the City shall have the right to retain legal counsel. The Applicant shall be responsible and reimburse the City for

such legal fees and costs, in their entirety, including actual attorneys' fees, which may be incurred by the City in defense of such action or proceeding. This indemnification shall also include, but not be limited to, damages, fees and/or costs awarded against the City, if any, and cost of suit, attorneys' fees, and other costs, liabilities and expenses incurred in connection with such claim, action, or proceeding whether incurred by Applicant, the City and/or any parties bringing such forth.

The City of Fontana and the Applicant acknowledge that the City would not have approved this project if the City were to be liable to Applicant in damages under or with respect to all or any part of this application or this condition of approval. Accordingly, Applicant shall not sue the City for damages or monetary relief for any matter arising from or related to this condition of approval. Applicant's sole and exclusive remedy shall be limited to declaratory/injunctive relief, mandate, and/or specific performance.

4. Prior to the construction of any modifications, all structural and aesthetic changes to the project design must be requested and approved in writing by the Director of Planning or his/her designee. Major structural and aesthetic changes exceeding the codified parameters of administrative policy shall be presented to the Planning Commission for approval. Changes made without approval as stated herein, will prevent the occupancy of the structure until corrections are approved in writing by all appropriate staff.
5. The Director of Planning, or his/her designee, shall have the authority for minor architectural changes focusing on items such as window treatments, color combinations, façade treatments, and architectural relief. Questions on the interpretation of this provision or changes not clearly within the scope of this provision shall be submitted to the Planning Commission for consideration under a Revision to the Design Review.
6. Any foam treatment used for architecture treatments and/or projections located on the first floor (under 14 feet) shall be covered with concrete or similar durable material a minimum of ½ inch thick, or as determined by the Director of Planning.
7. If solar panel systems are installed on the roof of any residential structure, the installation shall be on top or above the approved roof tile. If a solar panel system is flush-mounted to the roof, matching roof tiles shall be replaced immediately upon removal of the solar panels.
8. The Applicant shall post a publicly visible sign on the project site with the telephone number and 24-hour point of contact for dust, noise, and construction complaints. The 24-hour point of contact shall be available 24 hours a day, 7 days a week and have authority to commit additional assets to control dust, or respond to construction complaints after hours, on weekends and on holidays. Construction shall be limited to 7:00am to 6:00pm on weekdays, 8:00am to 5:00pm on Saturdays, and no construction on Sundays and Holidays.

9. After the fifteen (15) day appeal period, the Applicant shall remove the notice of Filing sign from the project site. The Applicant may request a refund of the \$300 sign deposit. The request shall be submitted to the Planning Department.
10. Historic Archaeological Resources
 - A. Upon discovery of any tribal cultural or archaeological resources, cease construction activities in the immediate vicinity of the find until the find can be assessed. All tribal cultural and archaeological resources unearthed by project construction activities shall be evaluated by the qualified archaeologist and tribal monitor/consultant. If the resources are Native American in origin, interested Tribes (as a result of correspondence with area Tribes) shall coordinate with the landowner regarding treatment and curation of these resources. Typically, the Tribe will request preservation in place or recovery for educational purposes. Work may continue on other parts of the project while evaluation takes place.
 - B. Preservation in place shall be the preferred manner of treatment. If preservation in place is not feasible, treatment may include implementation of archaeological data recovery excavation to remove the resource along the subsequent laboratory processing and analysis. All Tribal Cultural Resources shall be returned to the Tribe. Any historic archaeological material that is not Native American in origin shall be curated at a public, non-profit institution with a research interest in the materials, if such an institution agrees to accept the material. If no institution accepts the archaeological material, they shall be offered to the Tribe or a local school or historical society in the area for educational purposes.
 - C. Archaeological and Native American monitoring and excavation during construction projects shall be consistent with current professional standards. All feasible care to avoid any unnecessary disturbance, physical modification, or separation of human remains and associated funerary objects shall be taken. Principal personnel shall meet the Secretary of the Interior standards for archaeology and have a minimum of 10 years' experience as a principal investigator working with Native American archaeological sites in southern California. The Qualified Archaeologist shall ensure that all other personnel are appropriately trained and qualified.
11. The construction contractor will use the following source controls at all times:
 - A. Construction shall be limited to 7:00 am to 6:00 pm on weekdays, 8:00 am to 5:00 pm on Saturdays, and no construction on Sundays and Holidays unless it is approved by the building inspector for cases that are considered urgently necessary as defined in Section 18-63(b)(7) of the Fontana City Code.
 - B. For all noise-producing equipment, use types and models that have the lowest horsepower and the lowest noise generating potential practical for their intended use.
 - C. The construction contractor will ensure that all construction equipment, fixed or mobile, is properly operating (tuned-up) and lubricated, and that mufflers are working adequately.
 - D. Have only necessary equipment onsite.

- E. Use manually adjustable or ambient-sensitive backup alarms. When working adjacent to residential use(s), the construction contractor will also use the following path controls, except where not physically feasible, when necessary:
 - 1. Install portable noise barriers, including solid structures and noise blankets, between the active noise sources and the nearest noise receivers.
 - 2. Temporarily enclose localized and stationary noise sources.
- 12. This project shall comply with all applicable provisions, regulations and development standards of the Fontana Municipal Code.
- 13. The current Development fees must be paid prior to issuance of building/construction permits.
- 14. Graffiti and unauthorized markings on any wall, sign, or structure must be removed within twenty-four (24) hours.
- 15. All landscaping shall be adequately maintained at all times.
- 16. Applicant shall pay all applicable service fees pursuant to the Fontana Municipal Code.
- 17. All signs shall be reviewed under a separate Design Review Sign application. This includes, but is not limited to, building signs, monument signs, pylon signs, etc.
- 18. All temporary signs (banners, wind flags, etc.) shall not be placed on the property unless the proper permits are obtained.
- 19. Color combinations and color schemes for commercial buildings approved under a Design Review Permit application shall not be modified or changed without prior approval from the original approving body by a revision to the original application. Minor hue color changes may be approved by the Director of Planning. The Director of Planning shall have the authority to refer minor hue color changes to the Planning Commission for consideration under a revision to the original application if deemed necessary. Appeals shall follow provisions of the Municipal Code.
- 20. The applicant shall provide up-lighting on the perimeter and up-light proposed trees to the satisfaction of the Director of Planning and his/her designee.

PRIOR TO ISSUANCE OF GRADING PERMIT

- 21. All Conditions of Approval contained herein shall be incorporated into all applicable final construction plans and a copy of these conditions shall be placed on a sheet in the final building or grading plans prior to issuance of any building or grading permits.

PRIOR TO ISSUANCE OF CERTIFICATE OF OCCUPANCY

22. Development fees and the Planning Department final inspection fee must be paid prior to Certificate of Occupancy.
23. Prior to the issuance of a Certificate of Occupancy, the applicant shall underground all utilities, which for the purpose of this condition shall include all boxes, structures and/or other equipment located in the public rights-of-way, any public utility easement(s), and on any private property, to the satisfaction of the Director of Planning.

ENGINEERING DEPARTMENT:

24. The Project shall be served by the City's sanitary sewer system, all sewer facilities shall be constructed in accordance with the City Standards. Main trunk sewer line shall be in accordance with master sanitary sewer plan or as approved by the City Engineer.
25. The Applicant shall obtain design and plan approval from all utility providers having jurisdiction over the on-site and off-site utilities. Completion of all undergrounding of on-site and off-site utilities is required by Section 27-52 of the City Municipal Code and in accordance with plans and specifications approved by the City Engineer.
26. The Applicant shall maintain all improvements and utilities within the public right-of-way, including street sweeping, prior to issuance of final certificate of occupancy by the City.

PRIOR TO ISSUANCE OF GRADING PERMIT

27. The Applicant shall submit and gain approval of a complete Water Quality Management Plan report in accordance with the County of San Bernardino Technical Guidance Document and latest template.
28. The Applicant shall submit and gain approval of a final drainage study prepared in accordance with the County of San Bernardino Hydrology Manual and Fontana Master Plan of Drainage.

PRIOR TO MAP RECORDATION

29. Applicant shall provide a Subdivision Improvement Agreement, with accompanying security. The agreement shall be executed on City-provided forms. The cost estimate for determining the security amount shall be based on approved public improvement plans.
30. The Applicant shall submit a Community Facility District (CFD) maintenance map that meets Engineering requirements for size and format as required for the development showing the CFD boundary and maintenance requirements, obtain approval of the map and complete the first public hearing for formation of the CFD.

PRIOR TO ISSUANCE OF CONSTRUCTION PERMITS

31. The Applicant shall record all right-of-way dedications, easements, reciprocal access

agreement as required for the development.

32. The Applicant shall submit engineered improvement plans and obtain full approval. All required public improvements, including but not limited to streets, storm drainage systems, sewers, striping, signs, landscape, and any required traffic control and/or detour plans. All plans shall conform to City Standards and Specifications, and as approved by the City Engineer.

PRIOR TO ISSUANCE OF FINAL CERTIFICATE OF OCCUPANCY

33. Complete all public improvements required of the project. Underground utilities required of the project. Ensure streetlights are energized and operating properly.
34. The Applicant/Engineer to provide the City of Fontana with As Built/Record Drawings for all public improvement plans. The Applicant/Developer shall provide a copy of the streetlight electric bill.
35. Slurry seal roads effected by the development as directed by the inspector. Slurry seal limits may extend past the project frontage to address existing striping/pavement markings that conflicts with new striping/pavement markings, repair trenches, and other areas as determined by the inspector.
36. The Surveyor of Record shall provide centerline ties to the City of Fontana reflecting proper setting of all survey monuments within the project limits and replace any existing survey monuments damaged or removed during construction.
37. The Surveyor of Record shall set survey monuments as required by the map and corner records must be recorded with the County. The Surveyor of Record shall notify the City in writing that monuments have been set in accordance with the recoded subdivisions map and he/she has been paid in full for doing so.
38. The Applicant/Landscape Architect shall provide a "Landscape Certificate of Compliance" certifying that the work has been designed, installed, and will be maintained in accordance with the City of Fontana's Model Water Efficiency Ordinance (Ordinance 1743, FCC Section 28)
39. All sewers shall be video inspected by applicant/contractor. Sewer video shall include clean-out connection, clean-out to lateral segment, lateral, and main line. Contractor performing the video inspection must have a NASSCO PACP, LACP, and MACP certification. Applicant shall provide a copy of the video on DVD or flash drive to inspection staff with an accompanying full report. Videos to be inspected and approved by City Inspector. If removal and replacement of any utility is required, a subsequent video of the repair will be required.
40. All storm drains shall be video inspected by applicant/contractor. Storm drain video shall include main lines and laterals. Applicant shall provide a copy of the video on DVD or flash drive to inspection staff. Videos to be inspected and approved by City Inspector. If removal and replacement of any utility is required, a subsequent video of

the repair will be required.

41. The Applicant/Engineer of Record shall submit a conforming copy of the recorded Memorandum of Agreement for the Water Quality Management Plan and Storm Water Best Management Practices transfer. The Access, Maintenance, and the WQMP Certification for BMP Completion must be submitted to the City Project Engineer.

BUILDING AND SAFETY:

42. The applicant shall design the project to show compliance with the latest adopted edition of the following codes as applicable:
 - A. California Building Code
 - B. California Residential Code
 - C. California Electrical Code
 - D. California Mechanical Code
 - E. California Plumbing Code
 - F. California Energy Code
 - G. California Fire Code
 - H. California Green Building Standards Code
43. The applicant shall install an automatic fire suppression system, which is required in all new construction per FMC Chapter 11 Article II. Design and type of system shall be based upon the requirements of the Building Code, Fire Code and the requirements of the Fontana Fire Prevention District.
44. The applicant shall verify that any temporary building, trailer, commercial coach, etc. installed and/or used in connection with a construction project complies with FMC Chapter 5 Article XIV.
45. The applicant shall verify that all perimeter/boundary walls are designed and constructed so that the outer/exterior face of the wall is as close as possible to the lot line. In any case, the outer/exterior face of the wall shall be within two (2) inches of the lot line. Distances greater than two (2) inches may be approved prior to construction by the Building Official on a case-by-case basis for extenuating circumstances.
46. The applicant shall have the tract or parcel map recorded prior to the issuance of any building permits.
47. The applicant shall comply with the following grading requirements:
 - A. Grading plans shall be submitted to and approved by Building & Safety. The grading plans shall indicate all site improvements and shall indicate complete drainage paths of all drainage water run-offs.
 - B. All drainage water shall drain via approved methods to an approved location, such as a public street, a public drainage system, etc.
 - C. Drainage water shall not cross over a public sidewalk. Drainage water may,

however, cross under a sidewalk if an approved drainage structure is used.

- D. A recorded drainage acceptance agreement is required from adjoining property(s) receiving flows from this property.
- E. No water course or natural drainage shall be obstructed.
- F. Minimum slope or grade for ALL drainage structures shall be one half (0.50) percent for concrete and one (1.0) percent for all other, or as otherwise approved by the Building Official.
- G. Drainage water shall not pass from an 'improved' type of drainage structure to an 'unimproved' type of drainage structure (e.g., concrete swale to a dirt swale) unless otherwise approved by the Building Official.
- H. A complete hydrology study using the latest edition of the San Bernardino County Flood Control Hydrology Manual, and complete hydraulic calculations justifying the size, slope, capacity, etc. of any and all drainage structures being utilized, shall be submitted to and approved by Building & Safety.

The on site drainage system shall, as a minimum, be designed to handle the run off generated by a ten (10) year storm. Check for flooding of all on site structures (buildings) and all adjacent properties during a hundred (100) year storm.

- I. The grading plans shall, as a minimum, contain sections at all lot lines and/or permit boundary lines. These sections shall clearly indicate:
 - 1. The relationship between the proposed finished on site grade elevations and the existing adjacent property grade elevations (Indicate any additional drainage water that may come from an adjacent property.); and
 - 2. The ground cover/finished surface material being proposed (e.g., type of pavement, plant material, etc.); and
 - 3. All proposed drainage structures; and
 - 4. Any proposed and/or required walls or fencing.
- 48. The applicant shall be required to obtain permits for the removal and/or demolition of structures.
- 49. The applicant shall verify that all exterior lighting shall be oriented, directed, and/or shielded as much as possible so that direct illumination does not infringe onto adjoining properties.

PRIOR TO ISSUANCE OF BUILDING/CONSTRUCTION PERMITS

50. The following items (as applicable) shall be completed by the applicant and submitted to Building & Safety prior to the issuance of building permits for this project:
 - A. Precise grading plans shall be approved
 - B. Rough grading completed
 - C. Compaction certification
 - D. Pad elevation certification
 - E. Rough grade inspection signed off by a City Building Inspector

FIRE DEPARTMENT:

51. **Jurisdiction.** The above referenced project is under the jurisdiction of the Fontana fire Protection District (herein "Fire Department"). Prior to any construction occurring on any parcel, the applicant shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current California Fire Code requirements and all applicable statutes, codes, ordinances, and standards of the Fire Department.
52. **Fire Access Road Width.** Prior to map recordation, all fire access roadways shall be designed to meet the requirements for this development and shall be approved by the Fire Department. All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty-six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Buildings three (3) stories in height or more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height. California Fire Code Chapter 5 & SBCoFD Standard A-1.
53. **Turnaround.** An approved turnaround shall be provided at the end of each roadway one hundred and fifty (150) feet or more in length. Cul-de-sac length shall not exceed six hundred (600) feet; all roadways shall not exceed a 12 % grade and have a minimum of nineteen (19) foot inside radius and a forty-five (45) foot outside radius for all turns. California Fire Code Chapter 5 & SBCoFD Standard A-1.
54. **Street Signs.** Approved temporary or permanent street signs shall be installed throughout the project prior any combustible materials being placed on the construction site. California Fire Code Chapter 5 & SBCoFD Standard A-2.
55. **Fire Lanes.** The applicant shall submit a site plan to the Fire Department for review and approval of all proposed signage and striping for all fire access roadways. All curbs adjacent to fire lanes shall be painted red and "No Parking, Fire Lane" signs shall be installed on public and private roads in accordance with approved standards. SBCoFD Standard A-2.
56. **Hydrant Marking.** Blue reflective pavement markers indicating fire hydrant locations shall be installed as specified by the Fire Department. SBCoFD Standard W-2.
57. **Water Improvement Plan:** The applicant shall submit "Water Improvement Plans" to Fontana Fire Prevention. W.I.P. to include site plan, existing & proposed PUBLIC fire

hydrant locations, building construction type and largest building square footage. Once approved by Fire Department, applicant will provide stamped/approved W.I.P to water purveyor for their construction needs. ON-SITE PRIVATE FIRE WATER SUPPLY SHALL BE INSPECTED AND IN WORKING CONDITION PRIOR TO PLACING COMBUSTIBLE MATERIALS ON THE JOBSITE. California Fire Code Chapter 5.

58. **Combustible Protection.** Prior to combustibles being placed on the project site an approved paved roadway providing fire access and fire hydrants providing an acceptable fire flow shall be installed. California Fire Code Chapter 5.
59. **Fire Sprinkler-NFPA #13.** An automatic fire sprinkler system complying with NFPA 13 and Fire Department standards is required. A fire sprinkler contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The plans shall include hydraulic calculations and manufacturer specification sheets. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9 & SBCoFD Standard F-1.
60. **Fire Sprinkler-NFPA #13D.** An automatic life safety fire sprinkler system complying with NFPA 13D and Fire Department standards is required. A fire sprinkler contractor shall submit three (3) sets of detailed plans with hydraulic calculations and manufacturer specification sheets to the Fire Department for approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9 & SBCoFD Standard F-2.
61. **Fire Sprinkler-NFPA #13R.** An automatic fire sprinkler system complying with NFPA 13R and Fire Department standards is required. A fire sprinkler contractor shall submit three (3) sets of detailed plans with hydraulic calculations and manufacturer specification sheets to the Fire Department for approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9 & SBCoFD Standard F-3
62. **Fire Alarm, Manual or Automatic.** A manual, automatic or manual and automatic fire alarm system complying with the California Fire Code, NFPA 72 and all applicable codes is required. A fire alarm contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9, SBCFD Standard F-5, & NFPA 72.
63. **Fire Alarm, Waterflow Monitoring.** A water flow monitoring fire alarm system complying with the California Fire Code, NFPA and all applicable codes is required for fire sprinkler systems with twenty (20) sprinkler heads or more. A fire alarm contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9, NFPA 72 & SBCoFD Standard F-5.
64. **Fire Extinguishers.** Hand portable fire extinguishers are required. The location, type, and cabinet design shall be approved by the Fire Department. California Fire Code Chapter 9.

65. **Spark Arrestor.** An approved spark arrestor is required. Every chimney that is used in conjunction with any fireplace or any heating appliance in which solid or liquid fuel are used, shall have an approved spark arrestor visible from the ground that is maintained in conformance with Fire Department requirements. California Fire Code Chapter 6.

Exhibit "B"

**CITY OF FONTANA
CONDITIONS OF APPROVAL**

PROJECT: Master Case No. 24-047
Design Review No. 24-024

DATE: April 15, 2025

LOCATION: The project site is located on the west side of Laurel Avenue, south of Arrow Boulevard (APNs: 0246-121-71 and -72)

PLANNING DEPARTMENT:

1. The rights and privileges granted by this project shall not become effective, nor shall the Applicant commence the use for which this project is granted, until both of the following have occurred:
 - A. All of the improvements, construction, alteration and other work set forth in this project have been completed and have been accepted by the City, as evidenced by the City's issuance of a Certificate of Occupancy or other document evidencing the City's final inspection and acceptance of the work; and
 - B. All other Conditions of Approval imposed by this project have been fulfilled.
2. This Design Review shall become null and void two (2) years from the date of approval, unless the appropriate permits have been obtained and construction, defined as permit obtainment, commencement of construction of the primary building on site, and successful completion of the first Building and Safety Division inspection, has commenced within this period.
3. The Applicant shall defend, indemnify, protect and hold harmless the City of Fontana or its agents, officers, attorneys and employees from any and all actual or alleged claims, actions or proceedings against the City of Fontana or its agents, officers, attorneys or employees to attack, set aside, void, annul or seek monetary damages arising out of any challenge to the Applicant's proposed project or to any approvals of the Planning Commission and/or City Council concerning this project, including but not limited to actions challenging CEQA actions, permits, variances, plot plans, design plans, maps, licenses, and amendments. The City of Fontana shall promptly notify the Applicant of any claim, action, or proceeding and the City of Fontana shall cooperate in the defense.

In the event of any such third-party action or proceeding, the City shall have the right to retain legal counsel. The Applicant shall be responsible and reimburse the City for

such legal fees and costs, in their entirety, including actual attorneys' fees, which may be incurred by the City in defense of such action or proceeding. This indemnification shall also include, but not be limited to, damages, fees and/or costs awarded against the City, if any, and cost of suit, attorneys' fees, and other costs, liabilities and expenses incurred in connection with such claim, action, or proceeding whether incurred by Applicant, the City and/or any parties bringing such forth.

The City of Fontana and the Applicant acknowledge that the City would not have approved this project if the City were to be liable to Applicant in damages under or with respect to all or any part of this application or this condition of approval. Accordingly, Applicant shall not sue the City for damages or monetary relief for any matter arising from or related to this condition of approval. Applicant's sole and exclusive remedy shall be limited to declaratory/injunctive relief, mandate, and/or specific performance.

4. Prior to the construction of any modifications, all structural and aesthetic changes to the project design must be requested and approved in writing by the Director of Planning or his/her designee. Major structural and aesthetic changes exceeding the codified parameters of administrative policy shall be presented to the Planning Commission for approval. Changes made without approval as stated herein, will prevent the occupancy of the structure until corrections are approved in writing by all appropriate staff.
5. The Director of Planning, or his/her designee, shall have the authority for minor architectural changes focusing on items such as window treatments, color combinations, façade treatments, and architectural relief. Questions on the interpretation of this provision or changes not clearly within the scope of this provision shall be submitted to the Planning Commission for consideration under a Revision to the Design Review.
6. The Applicant shall post a publicly visible sign on the project site with the telephone number and 24-hour point of contact for dust, noise, and construction complaints. The 24-hour point of contact shall be available 24 hours a day, 7 days a week and have authority to commit additional assets to control dust, or respond to construction complaints after hours, on weekends and on holidays. Construction shall be limited to 7:00am to 6:00pm on weekdays, 8:00am to 5:00pm on Saturdays, and no construction on Sundays and Holidays.
7. After the fifteen (15) day appeal period, the Applicant shall remove the notice of Filing sign from the project site. The Applicant may request a refund of the \$300 sign deposit. The request shall be submitted to the Planning Department.
8. Historic Archaeological Resources
 - D. Upon discovery of any tribal cultural or archaeological resources, cease construction activities in the immediate vicinity of the find until the find can be assessed. All tribal cultural and archaeological resources unearthed by project construction activities shall be evaluated by the qualified archaeologist and tribal monitor/consultant. If the resources are Native American in origin, interested Tribes (as a result of correspondence with area Tribes) shall coordinate with the

landowner regarding treatment and curation of these resources. Typically, the Tribe will request preservation in place or recovery for educational purposes. Work may continue on other parts of the project while evaluation takes place.

- E. Preservation in place shall be the preferred manner of treatment. If preservation in place is not feasible, treatment may include implementation of archaeological data recovery excavation to remove the resource along the subsequent laboratory processing and analysis. All Tribal Cultural Resources shall be returned to the Tribe. Any historic archaeological material that is not Native American in origin shall be curated at a public, non-profit institution with a research interest in the materials, if such an institution agrees to accept the material. If no institution accepts the archaeological material, they shall be offered to the Tribe or a local school or historical society in the area for educational purposes.
 - F. Archaeological and Native American monitoring and excavation during construction projects shall be consistent with current professional standards. All feasible care to avoid any unnecessary disturbance, physical modification, or separation of human remains and associated funerary objects shall be taken. Principal personnel shall meet the Secretary of the Interior standards for archaeology and have a minimum of 10 years' experience as a principal investigator working with Native American archaeological sites in southern California. The Qualified Archaeologist shall ensure that all other personnel are appropriately trained and qualified.
9. The construction contractor will use the following source controls at all times:
- F. Construction shall be limited to 7:00 am to 6:00 pm on weekdays, 8:00 am to 5:00 pm on Saturdays, and no construction on Sundays and Holidays unless it is approved by the building inspector for cases that are considered urgently necessary as defined in Section 18-63(b)(7) of the Fontana City Code.
 - G. For all noise-producing equipment, use types and models that have the lowest horsepower and the lowest noise generating potential practical for their intended use.
 - H. The construction contractor will ensure that all construction equipment, fixed or mobile, is properly operating (tuned-up) and lubricated, and that mufflers are working adequately.
 - I. Have only necessary equipment onsite.
 - J. Use manually adjustable or ambient-sensitive backup alarms. When working adjacent to residential use(s), the construction contractor will also use the following path controls, except where not physically feasible, when necessary:
 - 3. Install portable noise barriers, including solid structures and noise blankets, between the active noise sources and the nearest noise receivers.
 - 4. Temporarily enclose localized and stationary noise sources.
10. This project shall comply with all applicable provisions, regulations and development standards of the Fontana Municipal Code.
11. The current Development fees must be paid prior to issuance of building/construction permits.

12. Graffiti and unauthorized markings on any wall, sign, or structure must be removed within twenty-four (24) hours.
13. All landscaping shall be adequately maintained at all times.
14. Applicant shall pay all applicable service fees pursuant to the Fontana Municipal Code.
15. All signs shall be reviewed under a separate Design Review Sign application. This includes, but is not limited to, building signs, monument signs, pylon signs, etc.
16. All temporary signs (banners, wind flags, etc.) shall not be placed on the property unless the proper permits are obtained.
17. Any foam treatment used for architecture treatments and/or projections located on the first floor (under 14 feet) shall be covered with concrete or similar durable material a minimum of ½ inch thick, or as determined by the Director of Planning.
18. Color combinations and color schemes for commercial buildings approved under a Design Review Permit application shall not be modified or changed without prior approval from the original approving body by a revision to the original application. Minor hue color changes may be approved by the Director of Planning. The Director of Planning shall have the authority to refer minor hue color changes to the Planning Commission for consideration under a revision to the original application if deemed necessary. Appeals shall follow provisions of the Municipal Code.
19. The applicant shall provide up-lighting on the perimeter and up-light proposed trees to the satisfaction of the Director of Planning and his/her designee.

PRIOR TO ISSUANCE OF GRADING PERMIT

20. All Conditions of Approval contained herein shall be incorporated into all applicable final construction plans and a copy of these conditions shall be placed on a sheet in the final building or grading plans prior to issuance of any building or grading permits.

PRIOR TO ISSUANCE OF CERTIFICATE OF OCCUPANCY

21. Development fees and the Planning Department final inspection fee must be paid prior to Certificate of Occupancy.
22. Prior to the issuance of a Certificate of Occupancy, the applicant shall underground all utilities, which for the purpose of this condition shall include all boxes, structures and/or other equipment located in the public rights-of-way, any public utility easement(s), and on any private property, to the satisfaction of the Director of Planning.

ENGINEERING DEPARTMENT:

23. The Project shall be served by the City's sanitary sewer system, all sewer facilities shall

be constructed in accordance with the City Standards. Main trunk sewer line shall be in accordance with master sanitary sewer plan or as approved by the City Engineer.

24. The Applicant shall obtain design and plan approval from all utility providers having jurisdiction over the on-site and off-site utilities. Completion of all undergrounding of on-site and off-site utilities is required by Section 27-52 of the City Municipal Code and in accordance with plans and specifications approved by the City Engineer.
25. The Applicant shall maintain all improvements and utilities within the public right-of-way, including street sweeping, prior to issuance of final certificate of occupancy by the City.

PRIOR TO ISSUANCE OF GRADING PERMIT

26. The Applicant shall submit and gain approval of a complete Water Quality Management Plan report in accordance with the County of San Bernardino Technical Guidance Document and latest template.
27. The Applicant shall submit and gain approval of a final drainage study prepared in accordance with the County of San Bernardino Hydrology Manual and Fontana Master Plan of Drainage.

PRIOR TO ISSUANCE OF CONSTRUCTION PERMITS

28. The Applicant shall record all right-of-way dedications, easements, reciprocal access agreement as required for the development.
29. The Applicant shall submit engineered improvement plans and obtain full approval. All required public improvements, including but not limited to streets, storm drainage systems, sewers, striping, signs, landscape, and any required traffic control and/or detour plans. All plans shall conform to City Standards and Specifications, and as approved by the City Engineer.

PRIOR TO ISSUANCE OF FINAL CERTIFICATE OF OCCUPANCY

30. Complete all public improvements required of the project. Underground utilities required of the project. Ensure streetlights are energized and operating properly.
31. The Applicant/Engineer to provide the City of Fontana with As Built/Record Drawings for all public improvement plans. The Applicant/Developer shall provide a copy of the streetlight electric bill.
32. Slurry seal roads effected by the development as directed by the inspector. Slurry seal limits may extend past the project frontage to address existing striping/pavement markings that conflicts with new striping/pavement markings, repair trenches, and other areas as determined by the inspector.
33. The Surveyor of Record shall provide centerline ties to the City of Fontana reflecting

proper setting of all survey monuments within the project limits and replace any existing survey monuments damaged or removed during construction.

34. The Surveyor of Record shall set survey monuments as required by the map and corner records must be recorded with the County. The Surveyor of Record shall notify the City in writing that monuments have been set in accordance with the recorded subdivisions map and he/she has been paid in full for doing so.
35. The Applicant/Landscape Architect shall provide a "Landscape Certificate of Compliance" certifying that the work has been designed, installed, and will be maintained in accordance with the City of Fontana's Model Water Efficiency Ordinance (Ordinance 1743, FCC Section 28)
36. All sewers shall be video inspected by applicant/contractor. Sewer video shall include clean-out connection, clean-out to lateral segment, lateral, and main line. Contractor performing the video inspection must have a NASSCO PACP, LACP, and MACP certification. Applicant shall provide a copy of the video on DVD or flash drive to inspection staff with an accompanying full report. Videos to be inspected and approved by City Inspector. If removal and replacement of any utility is required, a subsequent video of the repair will be required.
37. All storm drains shall be video inspected by applicant/contractor. Storm drain video shall include main lines and laterals. Applicant shall provide a copy of the video on DVD or flash drive to inspection staff. Videos to be inspected and approved by City Inspector. If removal and replacement of any utility is required, a subsequent video of the repair will be required.
38. The Applicant/Engineer of Record shall submit a conforming copy of the recorded Memorandum of Agreement for the Water Quality Management Plan and Storm Water Best Management Practices transfer. The Access, Maintenance, and the WQMP Certification for BMP Completion must be submitted to the City Project Engineer.

BUILDING AND SAFETY:

39. The applicant shall design the project to show compliance with the latest adopted edition of the following codes as applicable:
 - A. California Building Code
 - B. California Residential Code
 - C. California Electrical Code
 - D. California Mechanical Code
 - E. California Plumbing Code
 - F. California Energy Code
 - G. California Fire Code
 - H. California Green Building Standards Code
40. The applicant shall install an automatic fire suppression system, which is required in all new construction per FMC Chapter 11 Article II. Design and type of system shall be based upon the requirements of the Building Code, Fire Code and the requirements of

the Fontana Fire Prevention District.

41. The applicant shall verify that any temporary building, trailer, commercial coach, etc. installed and/or used in connection with a construction project complies with FMC Chapter 5 Article XIV.
42. The applicant shall verify that all perimeter/boundary walls are designed and constructed so that the outer/exterior face of the wall is as close as possible to the lot line. In any case, the outer/exterior face of the wall shall be within two (2) inches of the lot line. Distances greater than two (2) inches may be approved prior to construction by the Building Official on a case by case basis for extenuating circumstances.
43. The applicant shall have the tract or parcel map recorded prior to the issuance of any building permits.
44. The applicant shall comply with the following grading requirements:
 - A. Grading plans shall be submitted to and approved by Building & Safety. The grading plans shall indicate all site improvements and shall indicate complete drainage paths of all drainage water run-offs.
 - B. All drainage water shall drain via approved methods to an approved location, such as a public street, a public drainage system, etc.
 - C. Drainage water shall not cross over a public sidewalk. Drainage water may, however, cross under a sidewalk if an approved drainage structure is used.
 - D. A recorded drainage acceptance agreement is required from adjoining property(s) receiving flows from this property.
 - E. No water course or natural drainage shall be obstructed.
 - F. Minimum slope or grade for ALL drainage structures shall be one half (0.50) percent for concrete and one (1.0) percent for all other, or as otherwise approved by the Building Official.
 - G. Drainage water shall not pass from an 'improved' type of drainage structure to an 'unimproved' type of drainage structure (e.g., concrete swale to a dirt swale) unless otherwise approved by the Building Official.
 - H. A complete hydrology study using the latest edition of the San Bernardino County Flood Control Hydrology Manual, and complete hydraulic calculations justifying the size, slope, capacity, etc. of any and all drainage structures being utilized, shall be submitted to and approved by Building & Safety.

The on site drainage system shall, as a minimum, be designed to handle the run off generated by a ten (10) year storm. Check for flooding of all on site structures (buildings) and all adjacent properties during a hundred (100) year

storm.

- I. The grading plans shall, as a minimum, contain sections at all lot lines and/or permit boundary lines. These sections shall clearly indicate:
 1. The relationship between the proposed finished on site grade elevations and the existing adjacent property grade elevations (Indicate any additional drainage water that may come from an adjacent property.); and
 2. The ground cover/finished surface material being proposed (e.g., type of pavement, plant material, etc.); and
 3. All proposed drainage structures; and
 4. Any proposed and/or required walls or fencing.
45. The applicant shall be required to obtain permits for the removal and/or demolition of structures.
46. The applicant shall verify that all exterior lighting shall be oriented, directed, and/or shielded as much as possible so that direct illumination does not infringe onto adjoining properties.

PRIOR TO ISSUANCE OF BUILDING/CONSTRUCTION PERMITS

47. The following items (as applicable) shall be completed by the applicant and submitted to Building & Safety prior to the issuance of building permits for this project:
 - A. Precise grading plans shall be approved
 - B. Rough grading completed
 - C. Compaction certification
 - D. Pad elevation certification
 - E. Rough grade inspection signed off by a City Building Inspector

FIRE DEPARTMENT:

48. **Jurisdiction.** The above referenced project is under the jurisdiction of the Fontana fire Protection District (herein "Fire Department"). Prior to any construction occurring on any parcel, the applicant shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current California Fire Code requirements and all applicable statutes, codes, ordinances, and standards of the Fire Department.
49. **Fire Access Road Width.** Prior to map recordation, all fire access roadways shall be designed to meet the requirements for this development and shall be approved by the Fire Department. All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty-six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Buildings three (3) stories in height or

more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height. California Fire Code Chapter 5 & SBCoFD Standard A-1.

50. **Turnaround.** An approved turnaround shall be provided at the end of each roadway one hundred and fifty (150) feet or more in length. Cul-de-sac length shall not exceed six hundred (600) feet; all roadways shall not exceed a 12 % grade and have a minimum of nineteen (19) foot inside radius and a forty-five (45) foot outside radius for all turns. California Fire Code Chapter 5 & SBCoFD Standard A-1.
51. **Street Signs.** Approved temporary or permanent street signs shall be installed throughout the project prior any combustible materials being placed on the construction site. California Fire Code Chapter 5 & SBCoFD Standard A-2.
52. **Fire Lanes.** The applicant shall submit a site plan to the Fire Department for review and approval of all proposed signage and striping for all fire access roadways. All curbs adjacent to fire lanes shall be painted red and “No Parking, Fire Lane” signs shall be installed on public and private roads in accordance with approved standards. SBCoFD Standard A-2.
53. **Hydrant Marking.** Blue reflective pavement markers indicating fire hydrant locations shall be installed as specified by the Fire Department. SBCoFD Standard W-2.
54. **Water Improvement Plan:** The applicant shall submit “Water Improvement Plans” to Fontana Fire Prevention. W.I.P. to include site plan, existing & proposed PUBLIC fire hydrant locations, building construction type and largest building square footage. Once approved by Fire Department, applicant will provide stamped/approved W.I.P to water purveyor for their construction needs. ON-SITE PRIVATE FIRE WATER SUPPLY SHALL BE INSPECTED AND IN WORKING CONDITION PRIOR TO PLACING COMBUSTIBLE MATERIALS ON THE JOBSITE. California Fire Code Chapter 5.
55. **Combustible Protection.** Prior to combustibles being placed on the project site an approved paved roadway providing fire access and fire hydrants providing an acceptable fire flow shall be installed. California Fire Code Chapter 5.
56. **Fire Sprinkler-NFPA #13.** An automatic fire sprinkler system complying with NFPA 13 and Fire Department standards is required. A fire sprinkler contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The plans shall include hydraulic calculations and manufacturer specification sheets. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9 & SBCoFD Standard F-1.
57. **Fire Sprinkler-NFPA #13D.** An automatic life safety fire sprinkler system complying with NFPA 13D and Fire Department standards is required. A fire sprinkler contractor shall submit three (3) sets of detailed plans with hydraulic calculations and manufacturer specification sheets to the Fire Department for approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9 & SBCoFD Standard F-2.

58. **Fire Sprinkler-NFPA #13R.** An automatic fire sprinkler system complying with NFPA 13R and Fire Department standards is required. A fire sprinkler contractor shall submit three (3) sets of detailed plans with hydraulic calculations and manufacturer specification sheets to the Fire Department for approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9 & SBCoFD Standard F-3
59. **Fire Alarm, Manual or Automatic.** A manual, automatic or manual and automatic fire alarm system complying with the California Fire Code, NFPA 72 and all applicable codes is required. A fire alarm contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9, SBCFD Standard F-5, & NFPA 72.
60. **Fire Alarm, Waterflow Monitoring.** A water flow monitoring fire alarm system complying with the California Fire Code, NFPA and all applicable codes is required for fire sprinkler systems with twenty (20) sprinkler heads or more. A fire alarm contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal. California Fire Code Chapter 9, NFPA 72 & SBCoFD Standard F-5.
61. **Fire Extinguishers.** Hand portable fire extinguishers are required. The location, type, and cabinet design shall be approved by the Fire Department. California Fire Code Chapter 9.
62. **Spark Arrestor.** An approved spark arrestor is required. Every chimney that is used in conjunction with any fireplace or any heating appliance in which solid or liquid fuel are used, shall have an approved spark arrestor visible from the ground that is maintained in conformance with Fire Department requirements. California Fire Code Chapter 6.
