LICENSE AGREEMENT

THIS LICENSE AGREEMENT (this "Agreement") is entered into between SOUTHERN CALIFORNIA EDISON COMPANY, a corporation organized under the laws of the State of California, called "Licensor", and CITY OF FONTANA, a California municipal corporation, called "Licensee";

WITNESSETH: That Licensor, for and in consideration of the faithful performance by Licensee of the terms, covenants and agreements hereinafter set forth to be kept and performed by Licensee, does hereby give to Licensee, its designees and invitees (together identified hereinafter as "Licensee Parties") the license for the purpose of constructing and maintaining an underground conduit and cable, a traffic signal and a temporary public road for the benefit of public use, including but not limited to facilitating the construction and development of nearby properties, and storage of personal property during the construction of the conduit and road, on and within a portion of Assessor's Parcel Number 0239-092-08, situated in the City of Fontana, County of San Bernardino, State of California more fully described and depicted in Exhibit A attached hereto and made a part hereof ("Property"), upon and subject to the terms, reservations, covenants and conditions hereinafter set forth, subject to any and all covenants, restrictions, reservations, exceptions, rights and easements, whether or not of record.

Acknowledgment of License and Disclaimer of Tenancy

Licensee acknowledges and agrees that the License constitutes a limited, revocable, non-possessory, personal and non-assignable privilege to use the Property solely for those permitted uses and activities expressly identified in this Agreement (the "License Privilege"). Licensee further acknowledges and agrees that:

- The consideration paid by Licensee pursuant to Article 3 of the Agreement is consistent with the value of the rights comprising the License Privilege; the consideration is *not* consistent with the higher market value for a greater right, privilege or interest (such as a lease) in the Property or similarly situated parcels.
- Licensee is not a tenant or lessee of Licensor and holds no rights of tenancy or leasehold in relation to the Property.
- The Agreement and/or any prior and/or future acts or omissions of Licensor shall not create (or be construed as creating) a leasehold, tenancy or any other interest in the Property.
- Licensor may terminate the License and revoke the License Privilege at any time, subject, if applicable, to a notice period agreed upon by the parties, as more particularly set forth in the Agreement.
- In consideration of Licensor's grant of the License, Licensee specifically and expressly waives, releases and relinquishes any and all right(s) to assert any claim of right, privilege or interest in the Property other than the License.
- Licensee further acknowledges and agrees that without the representations and agreements set forth herein, Licensor would not enter into the Agreement.

1. Licensee’s Use of the Property: Licensee will cause the construction and maintenance of an underground conduit and cable, and traffic signal for a temporary public road for the benefit of public use. Licensee and Licensee’s Parties will store their personal property at the Property during construction. Licensee will utilize the Property for temporary public road purposes. Licensor makes no representation, covenant, warranty or promise that the Property, and any fixtures thereon, are fit or suitable for any particular use, including the use for which this Agreement is made and Licensee is not relying on any such representation, covenant, warranty or promise. Licensee’s use of the property for any other purpose and/or failure to utilize the Property in accordance with this License as determined by the Licensor in its sole discretion will be deemed a material default and grounds for immediate termination of this Agreement in accordance with Articles 28 and/or 30.

2. Term: Unless otherwise terminated as provided herein, this Agreement will be in effect for a term of five (5) years commencing on the first day of _____, 2024 and ending on the last day of 2029. Licensee acknowledges that this Agreement does not entitle Licensee to any subsequent agreement, for any reason whatsoever, regardless of the use Licensee makes of the Property, the improvements Licensee places on or makes to the Property, or for any other reason.

3. Consideration: Licensee will pay to Licensor the sum of Six Thousand Two Hundred Seventy Five and 63/100 Dollars (\$6,275.63) upon the execution and delivery of this Agreement for the full term of this Agreement. Payment to Licensor must be in the form of a check or money order payable to Southern California Edison Company. No cash payments will be accepted by Licensor. In addition, Licensee shall pay to Licensor a nonrefundable administrative fee in the amount of Seven Hundred Fifty Dollars (\$750), which is intended to defray some preparation costs and other expenses incurred by Licensor arising out of the development and implementation of this Agreement. Such payment shall be made with the initial license fee payment and is not refundable under any circumstances.

All accounts not paid within 30 days of the agreed upon due date will be charged a late fee equal to ten percent (10%) of the full amount that was due on said date. To the extent a payment is not made within sixty (60) days, Licensor may increase the late fee to twenty percent (20%) of the full amount due. Licensor shall further be entitled to any other costs associated with collection of the unpaid amounts.

Payment will be paid to the Southern California Edison Company, Post Office Box 800 Rosemead, California, 91770, and Attention: Corporate Accounting Department – Accounts Receivable.

4. Insurance: During the term of this Agreement, Licensee shall maintain, or cause to be maintained, the following insurance:

- (a) Workers’ Compensation with statutory limits, under the laws of the State of California and Employer’s Liability with limits of not less than \$1,000,000.00 each accident, disease/each employee, and disease/policy limit. as additional insureds, but only for Licensee’s negligent acts or omissions; (ii) contain separation of insureds or cross-liability clause, and (iii) require its insurer to waive all rights of subrogation against Licensor, its officers, agents and employees, except for any liability resulting from the negligent acts of the Licensor.

- (c) Commercial Automobile Liability insurance with a combined single limit of \$1,000,000.00. Such insurance shall cover the use of owned, non-owned and hired vehicles on the Property.
- (d) Self - Insurance: Licensee may self-insure all of the insurance requirements above if they belong to an approved Secondary Use Category and the self-insurance is maintained under a self-insurance program reasonably satisfactory to Licensor. Licensee may submit written verification of self-insurance to meet the above insurance requirements.

The failure to maintain such insurance may be deemed by Licensor a material default of this Agreement and grounds for immediate termination pursuant to Articles 28 and/or 30. Licensee shall provide Licensor with proof of such insurance by submission of certificates of insurance, pursuant to Article 38 “Notices”, at least ten days prior to the effective date of this Agreement, and thereafter at least ten days prior to each insurance renewal date. Licensee must provide Licensor at least thirty (30) days’ notice before any such insurance will be canceled, allowed to expire, or materially reduced. However, in the event insurance is canceled for the non-payment of a premium, Licensee must provide to Licensor at least ten (10) days’ prior written notice before the effective date of cancellation.

5. Licensor's Use of the Property: Licensee agrees that Licensor, its successors and assigns, have the right to enter the Property, at all times and for any purpose, and the right to conduct any activity on the Property; provided, however, that Licensor shall endeavor to minimize its impacts to Licensee Parties’ use of the Property while on the Property. Exercise of these rights by Licensor, its successors and assigns, will not result in compensation to Licensee for any damages whatsoever to personal property, structures, and/or crops located on the Property, nor shall Licensee be entitled to any compensation for any loss of use of the Property or a portion thereof, and/or any related damages, as a result of Licensor’s activities under this Article.

6. Licensee's Improvements: Licensor has approved Licensee’s improvement plans, which were developed in accordance with the guidelines contained in the Appendix to this License. It is understood and agreed that the general guidelines contained in the Appendix are intended to provide a framework for the development of conceptual plans only; and that, should Licensee make any changes to the approved plans, Licensor may modify or add to the conditions contained in the Appendix hereto, based on determinants including but not limited to individual site characteristics, Licensor’s existing or potential operating needs or Licensee’s proposed use(s) after consultation with Licensee. Licensee must submit, for Licensor's prior written approval which shall not be unreasonably withheld, plans for any modifications to such improvements.

To the extent Licensor reviews and/or approves any improvement plans, Licensor is doing so only for purposes of determining whether said improvements are compatible with Licensor’s use of the Property. Under no circumstances shall such review and/or approval be construed as a warranty, representation, or promise that the Property is fit for the proposed improvements, or that said improvements comply with any applicable city, state, or county building requirements, other legal requirements, or the generally accepted standard of care.

After providing initial notice under this provision, Licensor will not be required to provide any subsequent notice of breach of this Agreement.

30. Remedies: In the event of any material default by Licensee, in addition to any other remedies available to Licensor at law or in equity, Licensor shall have the option to immediately terminate this Agreement and all rights of Licensee hereunder by giving written notice of such immediate termination to Licensee.

destroy, sell or otherwise dispose of them with no further notice to Licensee. Licensor shall not be required to seek and/or obtain judicial relief (including, but not limited to, the filing of an unlawful detainer action), nor shall Licensor be responsible for the value of Licensee’s personal property.

Licensee agrees to pay such expenses to Licensor upon demand.

32. Limitation of Liability for Damage to Licensees Personal Property, Buildings, Structures and Fixtures:

IN ORDER FOR LICENSEE TO OBTAIN THE BENEFIT OF THE FEE IDENTIFIED IN ARTICLE 3, WHICH INCLUDES A LESSER ALLOWANCE FOR RISK FUNDING FOR LICENSOR, LICENSEE AGREES TO LIMIT LICENSOR’S LIABILITY PURSUANT TO THIS AGREEMENT. AS SUCH, IF LICENSEE IS ENTITLED TO ANY RELIEF FOR LICENSOR’S NEGLIGENCE, INCLUDING GROSS NEGLIGENCE, FOR DAMAGE OR DESTRUCTION OF LICENSEE’S PERSONAL PROPERTY, BUILDING(S), STRUCTURE(S) OR FIXTURE(S), THE TOTAL LIABILITY OF LICENSOR SHALL NOT EXCEED THE TOTAL FEES ACTUALLY PAID BY LICENSEE TO LICENSOR DURING THE TERM OF THIS AGREEMENT.

FURTHER, IN NO EVENT SHALL LICENSOR BE LIABLE UNDER ANY CIRCUMSTANCES FOR INJURY OR DAMAGE TO LICENSEE’S BUSINESS, IF ANY, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF RENTS OR OTHER EVENTS, LOSS OF BUSINESS OPPORTUNITY, LOSS OF GOODWILL OR LOSS OF USE, IN EACH CASE, HOWEVER OCCURRING, RELATED TO THIS AGREEMENT. THE PROVISIONS OF THIS SECTION 32 SHALL EXPRESSLY SURVIVE THE TERMINATION OR EXPIRATION OF THIS AGREEMENT.

33. Non-Possessory Interest: Licensor retains full possession of the Property and Licensee will not acquire any possessory interest, whether temporary, permanent, or otherwise by reason of this Agreement, or by the exercise of the permission given herein. Licensee will make no claim to any such interest and Licensee will not claim that it has or ever had an irrevocable license in the Property.

34. Waiver: The parties shall not be deemed to waive any provision of this Agreement orally or by conduct. Any waiver of any provision of this Agreement must be in a writing signed by the waiving party. No waiver of any provision shall be deemed a waiver of any other provision or of any subsequent breach of the same or any other provision. A party’s consent to or approval of any act shall not be deemed to render unnecessary the obtaining of consent to or approval of any subsequent act. Licensor’s acceptance of payment after providing notice of termination to Licensee shall not constitute a waiver of Licensor’s termination of the Agreement.

35. Authority: This Agreement is executed subject to General Order No. 69-C of the Public Utilities Commission of the State of California dated and effective July 10, 1985, incorporated by this reference. As set forth in General Order 69-C, this License is made conditional upon the right of the Licensor either on order of the Public Utilities Commission or on Grantor’s own motion to resume the use of that property (including, but not limited to the removal of any obstructions) whenever, in the interest of Licensor’s service to its patrons or consumers, it shall appear necessary or desirable to do so.

Initial (____)/(____/____)
Licensor/Licensee

Licensee agrees to comply with all federal, state and local laws and regulations. This Agreement should not be construed as a subordination of Licensor’s rights, title and interest in and to its fee ownership, nor should this Agreement be construed as a waiver of any of the provisions contained in said License or a waiver of any costs of relocation of affected Licensor facilities.

36. Electric and Magnetic Fields (“EMF”): There are numerous sources of power frequency electric and magnetic field (“EMF”), including household or building wiring, electrical appliances and electric power transmission and distribution facilities. There have been numerous scientific studies about the potential health effects of EMF. Interest in a potential link between long-term exposures to EMF and certain diseases is based on this scientific research and public concerns.

While some 40 years of research have not established EMF as a health hazard, some health authorities have identified magnetic field exposures as a possible human carcinogen. Many of the questions about diseases have been successfully resolved due to an aggressive international research program. However, potentially important public health questions remain about whether there is a link between EMF exposures in homes or work and some diseases including childhood leukemia and a variety of other adult diseases (e.g. adult cancers and miscarriages). While scientific research is continuing on a wide range of questions relating to exposures at both work and in our communities, a quick resolution of the remaining scientific uncertainties is not expected.

Since Licensee plans to license or otherwise enter Licensor property that is in close proximity to Licensor electric facilities, Licensor wants to share with Licensee and those who may enter the property under this agreement, the information available about EMF. Accordingly, Licensor has attached to this document a brochure that explains some basic facts about EMF and that describes Licensor policy on EMF. Licensor also encourages Licensee to obtain other information as needed to assist in understanding the EMF regarding the planned use of this property.

37. Induced Voltages: Licensee hereby acknowledges that any structures (including, but not limited to, buildings, fences, light poles) that exist or may be constructed on the Property licensed herein, (hereinafter, the “Structures”) in close proximity to one or more high voltage (66 kilovolt or above) electric transmission lines and/or substation facilities may be susceptible to induced voltages, static voltages and/or related electric fault conditions (hereinafter collectively referred to as “Induced Voltages”) unless appropriate grounding or other mitigation measures are incorporated into the Structures. If not properly mitigated, Induced Voltages can cause a variety of safety and/or nuisance conditions including, but not limited to, electric shocks or other injuries to individuals contacting the Structures or other utilities connected to the Structures (including, but not limited to, natural gas lines, water lines or cable television lines), or interference with or damage to sensitive electronic equipment in or around the Structures. Measures to mitigate Induced Voltages, if required, will vary from case to case because of factors such as electric facility configuration and voltage, other utilities involved, or sensitivity of electronic equipment. Licensee will be responsible to determine what Induced Voltages mitigation measures should be undertaken regarding the Structures and to implement such mitigation measures at its sole cost and expense.

Licensee agrees for itself and for its contractors, agents, licensees, invitees, and employees, to save harmless and indemnify Licensor, its parent, subsidiaries and affiliated entities and their respective officers and employees against all claims, loss, damage, actions, causes of action, expenses and/or liability arising from or growing out of loss or damage to property, including Licensor’s own personal property, or injury to or death of persons, including employees of Licensor caused by or resulting from or connected to Induced Voltages on or related to the Structures.

The following criteria are provided to aid in developing a conceptual plot plan to be submitted to Southern California Edison Company herein after referred to as “Licensor” for consideration and approval *prior to the start of any construction on “Licensor” property.*

Plans should be developed indicating the size and location of all planned improvements. The plan should specify the dimensions of all planned improvements and the distance of all planned improvements from property lines and all adjacent “Licensor” towers, poles, guy wires or other “Licensor” facilities.

The plan must show the locations of all “Licensor” towers and poles, 16-foot-wide access roads, main water lines and water shut-off valves, electrical service lines and parking areas. All plans must indicate adjacent streets and include a “north arrow” and the Licensee’s name.

SHADE STRUCTURES

(Definition: A non-flammable frame covered on the top with a material designed to provide shade to aid in growing plants)

1. Shade structures must maintain minimum spacing of 50 feet between shade structure locations, should be placed perpendicular to Licensor’s overhead electrical conductors (wires) unless otherwise approved in writing by Licensor, and should not exceed maximum dimensions of:
 - a. 100 feet in length
 - b. 50 feet in width
 - c. 15 feet in height
2. Shade structures will not be permitted within the following areas reserved for Licensor’s access:
 - a. Within 2 feet from edge of 16-foot wide access roads
 - b. 50-foot radius around suspension tower legs, H-Frames, and poles
 - c. 100-foot radius around dead-end tower legs, H-Frames, and poles
 - d. 25-foot radius around anchors/guy wires, poles, and wood poles
3. Shade structures must utilize the following design:
 - a. Temporary/slip joint construction only
 - b. Non-flammable frame only
 - c. Adequately grounded in accordance with plans approved and stamped by a California electrical engineer
 - d. Shade covering must be non-flammable and manufactured with non-hydrocarbon materials.

SHADEHOUSES/HOTHOUSES

*(Definition: A simple, non-flammable, enclosed structure designed to control temperature **without** the benefit of heating and/or air conditioning units to aid in propagating and/or growing plants)*

1. Shadehouses/hothouses must maintain minimum spacing of 50 feet between shadehouse/hothouse locations, should be placed in perpendicular to Licensor’s overhead electrical conductors (wires) unless otherwise approved in writing by Licensor, and should not exceed maximum dimensions of:
 - a. 100 feet in length
 - b. 50 feet in width
 - c. 15 feet in height
2. Shadehouses/hothouses will not be permitted within the following areas reserved for Licensor’s access:
 - a. Within 2 feet from edge of 16-foot-wide access roads
