City of Fontana

March 31, 2025

The Honorable Mayor, Members of the City Council and Citizens of the City of Fontana

State law requires that all general-purpose local governments publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive annual financial report of the City of Fontana for the fiscal year ended June 30, 2024.

This report consists of management's representations concerning the finances of the City of Fontana. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Fontana has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the City of Fontana's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Fontana's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Fontana's financial statements have been audited by Eide Bailly LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Fontana for the fiscal year ended June 30, 2024, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Fontana's financial statements for the fiscal year ended June 30, 2024, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

i

The independent audit of the financial statements of the City of Fontana was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Fontana's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Fontana's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Fontana is located about 50 miles east of Los Angeles. The City spans approximately 42.4 square miles and has an estimated population of 215,465. The City was first developed as an organized rural community through the vision of Mr. A. B. Miller. Although self-sufficient, the farming community was abruptly reshaped to accommodate the industrial revolution in 1942 with the transformation of Mr. Miller's farm into a steel mill by Henry J. Kaiser. The area became Southern California's leading producer of steel and steel-related products. The steel industry dominated the City's economy until 1984 when the steel mill closed. Today, Fontana has emerged as an affordable suburb, attracting both residents and businesses.

The City was incorporated on June 25, 1952, under the laws of the State of California and enjoys all the rights and privileges applicable to a general law city. The City is governed by a five member City Council under the Council-Manager form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and four other members. The council is elected on a non-partisan basis. Council members serve four-year staggered terms, with two council members elected every two years. The mayor is elected to serve a four-year term. The mayor is elected at large and the four council members are elected by district. The governing council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring both the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

The City of Fontana employs approximately 650 full-time employees. Services provided include police protection; contract for fire services; the construction and maintenance of highways, streets, and other infrastructure; wastewater and sanitation services; and recreational activities and cultural events. In addition to general government activities, the City Council also serves as the Board of Directors of the Fontana Industrial Development Authority, the Fontana Public Financing Authority, the Fontana Public Facilities Financing Authority, the Fontana Housing Authority, the Fontana Community Foundation, the Fontana Fire Protection District as well as the Successor Agency for the Former Fontana Redevelopment Agency. Therefore, these activities have been included as an integral part of the City of Fontana's financial statements. Additional information on these entities can be found in Note 1 in the notes to the financial statements.

The annual budget serves as the foundation for the City of Fontana's financial planning and control. Each year the City Council reviews budget development guidelines for use in preparing the next year's budget. These guidelines are structured to reflect the City Council's goals and objectives and to provide the framework in which the Operating Budget is prepared. The Finance Department is responsible for compiling the estimated revenues and appropriations for the City Manager. Prior to the beginning of the new fiscal year, the City Council adopts the annual Operating Budget at a public meeting.

The City's budget policy is that all appropriations lapse at fiscal year-end. Outstanding encumbrance balances at fiscal year-end require re-approval by the City Council at the First Quarterly Budget Review. The City Council may amend the budget at any time during the fiscal year. Budget reports are presented to the City Council and the public on a quarterly basis. They include appropriation adjustments and revised revenue projections as needed. The legal level of budgetary control is set at the department level. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriate annual budget has been adopted.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Fontana operates.

Local economy. The Inland Empire's economy continues to exhibit a complex mix of resilience and emerging challenges. Key economic indicators point to stable employment levels despite national uncertainty, the housing market stabilizing alongside steady new home construction, moderate consumer spending, and a recovering retail sector led by grocery and discount stores, though challenges like high mortgage rates and housing affordability persist. These trends suggest a cautiously optimistic outlook.

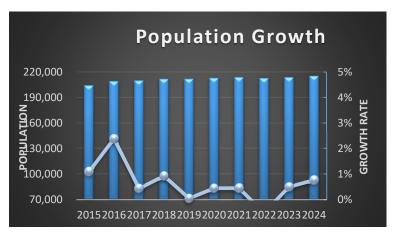

Balanced Growth. Fontana's labor market has shown steady improvement, with unemployment holding relatively low despite broader economic pressures. After a modest increase from 4.2% in February 2023 to approximately 4.5% by June 2024, employment levels remain stable and reflect the Inland Empire's broader trend of balanced economic growth. The region continues to expand gradually, supported by key sectors like logistics, healthcare, and local government, with no indicators pointing to a significant economic slowdown.

Retail Sales Are Decreasing. Taxable sales remain a vital revenue source for the City of Fontana. While the City experienced a 4% year-over-year increase in sales tax revenue from June 2022 to June 2023, FY 2023-24 saw a 5.4% decline in taxable sales compared to the prior year. This shift reflects a normalization of consumer spending following post-pandemic surges, rather than a sign of economic weakness. This moderation is part of a broader economic balancing, not a downturn, as the Inland Empire continues to show underlying strength and stability in its core economic sectors.

The City has offered tax abatement programs to businesses as an incentive, which in return promotes economic growth, attracts investment, and fosters job creation. By reducing certain tax obligations, these programs encourage businesses to expand, relocate, or reinvest in our community, and ultimately strengthening local economy in the long-term.

Housing Market Stable Prices, Steady Demand. The Inland Empire's housing market remains steady, with limited inventory and persistent demand contributing to modest price growth across the region. In San Bernardino County, home prices rose by 1% from June 2022 to June 2023, reflecting the market's stability rather than volatility. Affordability continues to be a key strength in the Inland Empire, particularly compared to coastal Southern California, where only 24–27% of households can afford a median-priced home—driving migration inland where 43–54% of buyers can still purchase homes at attainable prices.

In the City of Fontana, the housing market showed consistent growth in FY 2023-24, with median prices for existing homes rising 2.52% to an average of \$630,658. Fontana maintains a competitive advantage as the westernmost Inland Empire city with land available for both residential and industrial development. This strategic positioning, along with more accessible housing and labor costs, continues to attract both residents and businesses. Over the past three years, Fontana has maintained a strong pace of new housing, a trend expected to continue over the next decade due to ongoing land availability and redevelopment opportunities. These conditions point to a well-balanced and resilient housing market with long-term growth potential.

population will exceed 280,900 by the year 2040.

The center of San Bernardino County's growth is moving west into Fontana. The population has grown 5.5 percent over the past ten years and, at 215,465 Fontana is the second largest city in San Bernardino County, the third largest in the Inland Empire, and twentieth in the State.

With the ever-increasing demand for housing and ongoing addition of new residential units in the City, it is expected that the City's

The City of Fontana continued to see a number of significant events during the past year.

Significant Events of FY 2023-24

- **Downtown Parking Structure:** The City will construct a parking structure within the existing parking lot of the City's Human Resources Department Building located at 8491 Sierra Avenue, Fontana, CA 92335 which shall consist of a 4-tier parking structure allowing for approximately 320 parking spaces and two elevators. The project will also include various onsite and offsite improvements to include driveway approaches, RV parking and pull through area, landscaping, and other improvements. The intent of the structure is to serve as both public and employee parking for the civic campus as well as the planned downtown area which is to be revitalized. The estimated completion date is March 2025.
- **Energy Services Project (Parks):** The city completed the energy services project a \$3.6 million in FY 2023 that included upgrading and replacing lighting at 30 different parks with new Light Emitting Diode (LED) fixtures.

■ **9/11 Memorial Monument:** City Council identified funds for the 9/11 memorial monument project. The actual steel beam recovered from the World Trade Center site will be used as a main piece of the monument. The 18' long beam will be resurrected to its upright position as it once stood at the World Trade Center. The upright position of the beam speaks to resilience, perseverance, and strength against tragedy. The conceptual design has been approved and the detailed design is currently underway. The project design has been completed. Construction is projected to begin in FY 2024-2025.

completed in FY2023/24.

- Fire Station #81: As part of the Fire Master Plan and in an effort to meet a less than five-minute response time within the District 90% of the time, Fire Station #81 completed at the northern end of the City limits. Construction began March 2022 and is
- American Rescue Plan Act (ARPA) Grant: To aid the country in the recovery from the government imposed COVID-19 lockdown, the U.S. Treasury issued the \$350 billion American Rescue Plan Act (ARPA). The City of Fontana was allocated \$50.3 million which includes various spending categories such as: support public health expenditures; address negative economic impacts; serve the hardest-hit communities and families; replace lost public sector revenue; provide premium pay for essential workers; and invest in water, sewer, and broadband infrastructure. The City Council has approved various eligible projects within these categories.
- Pavement Rehabilitation Program: Based on the new Citywide 7-Year Pavement Management Plan, several pavement projects are expected to be completed in 2024/25 using various funds, including Road Maintenance and Rehabilitation Act (RMRA) funding.
- City Hall Renovation Project Phase I (Fire Annex): The City will demolish the existing Fire administration Building located at 17001 Upland Avenue, Fontana, CA 92335 and shall construct a two-story municipal building with first tier parking structure and second tier office spaces. Each tier will have a footprint of approximately 30,000 square feet with one vehicle entrance and exit located on Upland Ave. just west of Wheeler Ave. The City anticipates 65 parking spaces to be within the parking structure portion of the building. The intent of the building is to serve as office space for city staff as well as both public and employee parking for the civic campus. The estimated completion date is July 2025.

Financial Challenges Ahead

The following is a summary of challenges that the City may face over the next few years.

- **Inflation.** After decades of relatively low inflation, the prices of many goods and services experienced rapid increases beginning in 2021. The Riverside-San Bernardino-Ontario Metropolitan Statistical Area (MSA) Consumer Price Index for All Urban Consumers (CPI-U) saw decreases of 7.3% and 2.9% in 2023 and 2024 respectively. Although opinions differ with respect to the forecasted inflation, the consensus is a general cooling of inflation over the next year.
- **State Budget.** The Governor has released proposed 2025/26 budget projecting a small surplus of \$363 million after two years of deficits. The administration anticipates moderate economic growth but warns that federal policies on tariffs, international trade, and budget cut could threaten the state economy. California's recovery in total jobs as well as its unemployment rate continue to lag the nation. According to the U.S. Bureau of Labor Statistics and the California Employment Development Department, as of June 2024 the golden state has an unemployment rate of 5.3% or 1.04 million people. California is listed in the top 10% of highest unemployment in the country. The state is facing a labor shortage as employers struggle to hire qualified candidates.
- California Public Employees Retirement System (CalPERS). At the July 2021 board meeting, CalPERS further reduced the discount rate assumption from 7.15% to 6.9% due to the Funding Risk Mitigation Policy, requiring the reduction of the discount rate in years of high investment returns. CalPERS also adopted new actuarial assumptions which included longer life expectancies and earlier retirement ages. the City's PERS Rate Stability Reserve has a balance of \$12.2 million.
- **Housing Market & Interest Rates.** Housing prices increased dramatically at the beginning of the pandemic by 41% from February 2020 to April 2022. However, higher prices coupled with higher mortgage rates caused the demand for home purchases to dramatically decrease to nearly 40% below pre-pandemic levels while house prices remain 27% above their pre-pandemic levels. These factors all contribute to a forecasted decrease in home prices through 2023.
- **Unfunded Liability.** The City's CalPERS net pension and OPEB liabilities are \$210.4 million and \$21.3 million, respectively, as of June 30, 2024. The Annual required contribution to fund the City's retiree health program for both current and future retiree has been calculated to be \$2.6 million (excludes implicit subsidy amount). The retiree health program has been closed to new hires since 1990.
- **Property Value Reassessments.** The annual Consumer Price Index (CPI) adjustment which provides the basis for changes in assessed valuations state-wide continues at the 2% level, although properties that have enjoyed Prop 8 valuation reductions are not subject to this limit.
- **Capital Reinvestment Program.** Since 1996/1997, the City Council has been investing a portion of the annual General Fund Budget back into the community in the form of capital projects including streets and sidewalks, with a goal of 10%. Amounts allocated in the FY 2023/24 and 2024/25 Operating Budgets from various funds to this critical area total of \$13.8 million and \$11.8 million, respectively.

- **Proposition 218.** On November 5, 1996, the California electorate approved Proposition 218 affecting a change to the California State Constitution by making numerous changes to local government finance law. This measure impacts the generation and use of many fundamental revenue sources including fees, charges, assessments, and taxes. This proposition also changes the methods by which certain assessments and taxes are challenged by the electorate. Both the FY 2023/24 and the FY 2024/25 Operating Budget fully comply with the provisions of Proposition 218.
- **Services and Growth.** The City of Fontana has experienced significant growth over the past several years. With this growth comes the need to service a growing community. The funding sources for these additional services are revenue growth and the Municipal Services Fiscal Impact Fee Program (MSFIF). In addition, the City is anticipating growth following the successful passage of Measure T, a ballot approved by voters to increase the local sales tax by once-cent or 1%. This measure, which takes effect on April 1, 2025, is expected to generate an additional \$40 million in annual sales tax revenue.

Financial Information. Management of the City is responsible for establishing and maintaining internal control designed to ensure that the assets of the government are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with U.S. generally accepted accounting principles. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurances recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

This report consists of management's representations concerning the finances of the City. As a result, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. Management asserts that, to the best of their knowledge and belief, this financial report is complete and reliable in all material respects.

Budgetary controls. The City maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund, special revenue funds, debt service funds, capital project funds, and all the proprietary funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the department level. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbrances generally are re-appropriated as part of the following year's budget.

Regarding long-term financial planning, the City Council adopted the City's biennial budget for fiscal years 2023-2024 and 2024-2025. Additionally, as a companion to approving the budget plan, a seven-year Capital Improvement Plan was presented to the City Council. The seven-year plan links anticipated expenditures for infrastructure development with community needs and desires and provides a citywide perspective of recommended projects and proposed funding sources. The Capital Improvement Plan was finalized in June 2021 and totaled \$806.8 million for the seven-year fiscal period ending June 30, 2028. The seven-year Capital Improvement Plan has been submitted and annually updated, in its present form, since 1991, for effective long-range planning purposes. It is City Management's belief that these two plans give City Council members an expanded opportunity to set policy and provide direction for implementation, resulting in improved management efficiency and improved financial results.

The Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to the City for its Popular Annual Financial Report for the fiscal year ended June 30, 2019. This was the twentieth consecutive year the city has received this award. This is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. The Award is for a period of one year only.

The City's Statement of Investment Policy was awarded a Certification of Excellence Award by the Association of Public Treasurers of the United States and Canada (APT US&C) in 2000, 2003 and 2006. The award is issued in recognition of written investment policies which meet specific criteria set forth by the Association such as selection of suitable investment instruments, custody and safekeeping, internal controls, and reporting.

Preparation of this annual comprehensive financial report could not have been accomplished on without the support and cooperation of all City of Fontana staff. These dedicated members assisted and contributed to its preparation. Special recognition is given to the Finance staff. Their efforts made it possible to improve the quality of the information being reported to the citizens, the City Council, and other users on a timely basis. Appreciation is also expressed to the Mayor, the City Council, the City Treasurer and the City Manager for their interest and support in planning and conducting the financial activities of the City in a responsible and responsive manner.

Sincerely,

Jessica Brown

CITY-WIDE

Independent Auditor's Report

To the Members of the City Council City of Fontana, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fontana, California (the City), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fontana, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, Fire Protection District Fund, Housing Authority Fund, Economic Stimulus Fund, Grants Fund and the Traffic Congestion Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Correction of Errors

As discussed in Note 19 to the financial statements, certain errors resulting in a misstatement of amounts previously reported as of June 30, 2023, were discovered by management of the City during the current year. Accordingly, a restatement has been made to the Governmental Activities net position, Housing Authority fund balance, Home Program fund balance, and the Other Postemployment Benefit Trust Fund net position as of July 1, 2023, to correct the errors. Our opinions are not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net position liability and related ratios during the measurement period for the safety and miscellaneous plan, schedule of plan contributions for the safety and miscellaneous plan, schedule of changes in net OPEB liability and related ratios, and other postemployment benefit plan schedule of investment return, be presented to supplement the basic financial statements. Such information is the responsibility of management and although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining non-major governmental funds financial statements and budgetary schedules, the combining proprietary fund financial statements, and the combining fiduciary fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information identified above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

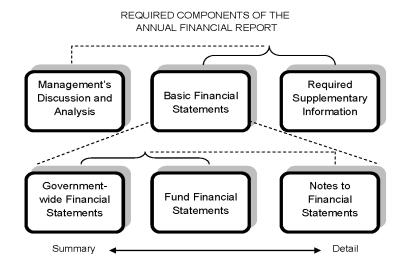

This narrative overview and analysis of the City of Fontana's financial activities for the fiscal year ended June 30, 2024 is presented by the management of the City of Fontana to readers of the City's financial statements. Management encourages readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report and the City's basic financial statements in the financial section of this report.

FINANCIAL HIGHLIGHTS

- The City's governmental and business-type activities resulted in total assets and deferred outflows of resources exceeding its liabilities and deferred inflows of resources by \$1,248.1 million as of June 30, 2024 ("current fiscal year"). Of this amount, \$270.3 million represents the portion for restricted uses as specified by entities outside of the City government, the amount for unrestricted uses in accordance with finance-related legal requirements as reflected in the City's fund structure is in a positive position at \$176.7 million, and \$801.1 million accounts for investments in capital assets in excess of related debt.
- The City's total net position increased \$86.7 million during the current fiscal year. The increase is primarily due to the \$12.1 million increase in property taxes, \$3.6 million increase in business license taxes, and \$16.7 million increase in operation contributions and grants.
- As of the fiscal year end, the City's Governmental Funds ending fund balances were \$593.5 million, an increase of approximately \$18.3 million or 3.19% from the prior fiscal year. Of this balance, \$35.7 million is in nonspendable, \$283.8 million restricted for use set by various legal requirements, \$47.2 million is committed for economic uncertainty and \$226.8 million is either assigned or unassigned based on the nature of the funding source.
- The General Fund's fund balance at the close of the current fiscal year was \$104.0 million, a decrease of approximately \$13.2 million or 11.3% from the previous year. The General Fund's fund balance consists of \$23.1 million in nonspendable and \$1.8 million in restricted fund balance, \$47.2 million in committed for the purposes of Economic uncertainty, and \$31.9 million in assigned and unassigned fund balances. See note 15 for further discussion.
- The City's business-type activities yielded operating revenues of \$28.9 million, while operating expenses amounted to of \$27.1 million.
- General Fund revenues were \$4.9 million more than the final budget, and expenditures were \$16.1 million less than the final budget.
- During the current fiscal year, the City determined that reported amounts in the prior fiscal year financial statements were not accurate, resulting in a restatement of the beginning net position and fund balance. The restatement was due to several factors which included additional insight on the City's reporting of it's OPEB plan and staff turnover. For additional information, see Note 19 of the Notes to the Financial Statements section of Annual Comprehensive Financial Report.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements include three components: government-wide financial statements; fund financial statements; and notes to the basic financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets plus deferred outflow of resources and liabilities plus deferred inflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, community development, community services and engineering. The business-type activities of the City include sewer, water operations, and other enterprise activity.

Component units are included in the basic financial statements and consist of legally separate entities for which the City is financially accountable and that have the same governing board as the City. The blended component units include the Successor Agency of the Former Fontana Redevelopment Agency, the Fontana Public Financing Authority, the Fontana Public Facilities Financing Authority, the Fontana Housing Authority, the Fontana Industrial Development Authority, the Fontana Community Foundation and the Fontana Fire Protection District. The

redevelopment agency was dissolved as of January 31, 2012 through the California Supreme Court decision on Assembly Bill 1X26. See Note 17 of the notes to the financial statements for more information on the dissolution.

The government-wide financial statements can be found on pages 19-21 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to the government-wide financial statements in order to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 55 individual governmental funds for financial reporting purposes. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund, the Fire Protection District Special Revenue Fund, the Housing Authority Special Revenue Fund, the Economic Stimulus Special Revenue Fund, the Grants Special Revenue Fund, the Traffic Congestion Relief Special Revenue Fund, the Sewer Expansion Capital Projects Fund, the Community Facility Districts Capital Projects Fund, and the Traffic Mitigation Capital Project Fund, which are considered to be major funds. Data for the other 46 governmental funds are combined in a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the non-major funds supplementary section of this report.

The City adopts an annual appropriated budget for its general fund, special revenue funds, debt service funds, and capital project funds. A budgetary comparison statement has been provided for the General Fund, the Fire Protection District Special Revenue Fund, the Housing Authority Low/Mod Housing Special Revenue Fund, the Economic Stimulus Special Revenue Fund, Grants Special Revenue Fund, and the Traffic Congestion Relief Special Revenue Fund in the basic financial statements and for the remaining special revenue funds, the debt service funds, and the capital project funds in the supplementary information.

The governmental fund financial statements can be found on pages 22-26 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its Sewer, Water, and Theater Operations. *Internal Service Funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for its fleet of vehicles; because this service predominantly benefits governmental rather than business-type functions, it has been included with *governmental activities* in the government-wide financial statements.

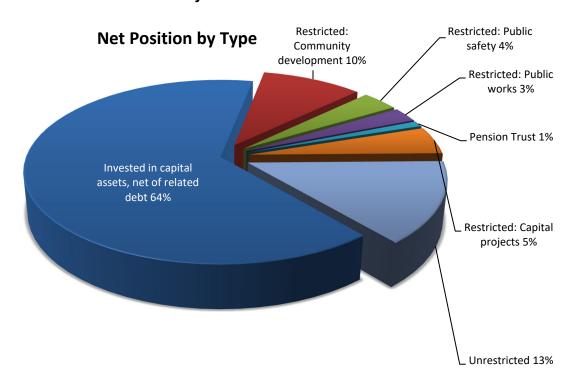

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements can be found on pages 34-36 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 37-38 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 39-96 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's net position is comprised of Net Investment in Capital Assets, Restricted Net Position, and Unrestricted Net Position. As of June 30, 2024, assets exceeded liabilities by \$1,248.1 million.

The City's net investment in capital assets (land, buildings, infrastructure, machinery, equipment, and vehicles), less any related debt used to acquire those assets that is still outstanding, is \$801.1 million. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the City's net position (\$270.3 million) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* \$176.7 million may be used to meet the government's ongoing obligations to citizens and creditors, unrestricted net position is in a positive position at the end of the fiscal year.

Governmental activities

The most significant revenues of the governmental activities are general taxes (48.0%), which include property taxes (27.5%), sales and use taxes (14.3%), and various other taxes (6.2%), and general revenues (10.4%), which include various other revenues (3.9%) and investment earnings (6.6%). Program revenues are 41.6% of the total revenues of the governmental activities, which include charges for services (19.1%), operating grants and contributions (17.3%), and capital grants and contributions (5.2%).

Public safety (police and fire) is the most significant (41.9%) of all governmental activities' expenses, followed by Public works & Engineering (24.5%), General government (19.3%), Community services (7.1%), Community development (6.5%), and interest on long-term debt (0.7%). Included in these amounts is depreciation expense, which is 13.1% of the total expenses for governmental activities.

Governmental activities revenues increased by \$37.8 million (10.7%) in the current fiscal year. The changes in revenues are a result of the following:

- **General tax revenues** increased by \$12.3 million (7.0%) which is primarily due to increase in property tax revenue by \$12.1 million as a higher property valuation in FY 2024. Additionally, business license tax revenues increased by \$3.5 million due to payments received from delinquent business licenses.
- **General revenues (not including general taxes)** increased by \$9.9 million in FY 2024. This is primarily due to the \$16.6 million increase in our investment earnings as the City purchased more treasury securities at a higher yield interest rate and the Federal Reserve has put a pause on the rising interest. This increase is offset by \$6.7 million decrease in donation of Community Facilities District infrastructure by developer.
- Charges for services increased by \$1.4 million (1.9%) which is in alignment with the city projection.
- **Operating contributions and grants** increased by \$16.7 million due to the increase of \$3.9 million in Traffic Congestion Relief projects and \$9.0 million in grants for Homelessness Prevention program.
- Capital contributions and grants decreased by \$2.6 million due to the decrease in capital grants received by the city.

Governmental activities expenses increased by \$44.2 million (16.7%) in the current fiscal year. The most significant changes in governmental expenses were:

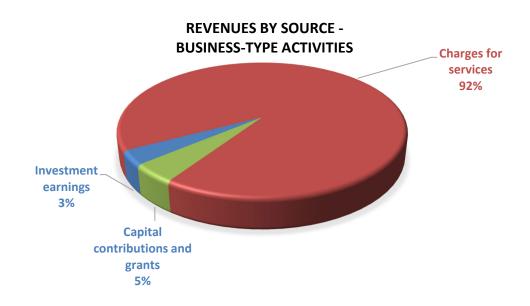

• General Government and Public Safety, which were increased by \$36.2 million in total. The increase is mainly due to a reduction in OPEB expense in prior fiscal year, which made the current year's expense appear to be higher by \$26 million. Additionally, current year's expenses include \$5.7 million in payments for lawsuit settlements, a one-time payment of \$4.7 million to PERS for unfunded liability, and a \$4.4 million increase in subscription-based information technology services.

Business-type activities

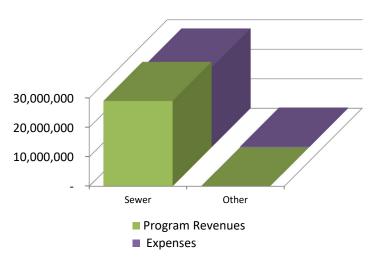

Business-type activities net position increased by \$1.9 million (2.4 percent)
Business-type activities revenues for current year is showing a decrease of \$4.1 million.

- **Investment earnings** increased by \$0.7 million as a result of the Federal Reserve Board pause the rise in interest rate and the City bought some of the treasury securities at a higher interest rate yield.
- Charges for services increased by \$1.5 million primarily due to an increase in rates charged by other
 entities such as IEUA and City of Rialto that are collected by the city and passed through to the proper
 entities.
- **Capital contributions** decreased by \$6.2 million due to the prior year received a one-time donation of the sewer system by the CFD developer.

Total expenses increased by \$0.9 million is due to the increase in EDU (Equivalent Dwelling Unit) charge fees compared to prior year.

Financial Analysis of the City's Funds

The City of Fontana employs Fund Accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *assigned and unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$593.5 million, an increase of \$18.5 million (3.2%) from the previous year. Of this total amount, \$226.8 million constitutes assigned or unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is either nonspendable (\$35.7 million), restricted (\$283.8 million) or committed (\$47.2 million) and is not available for new spending. The nonspendable fund balance consists of 1) land held for resale of \$11.6 million, 2) deposits on account of \$0.2 million, 3) inventories held (\$1.4 million), and 4) loan receivables (\$22.5 million). Restricted fund balance includes amounts that are constrained on the use of the resources by outside parties and committed fund balance includes amounts that are constrained on the use of the resources pursuant to City Council formal action. For additional details of the City's fund balances, please refer to Note 15 in the Notes to the Basic Financial Statements.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the assigned fund balance of the general fund was \$6.4 million, while total fund balance reached \$104.0 million, which was \$13.2 million or 11.3% lower than the prior year. The City's management assigns fund balance to a particular function, project or activity and may also be assigned for purposes beyond the current year. However, assigned fund balance is available for appropriation at any time. The General Fund has committed fund balance of \$47.2 million for economic uncertainty.

General fund revenues increased by \$6.3 million (4.1%) from the previous fiscal year; this increase is primarily due to:

- Property Tax in Lieu of VLF was increased by \$3.2 million due to the increase in assessed valuation and continued growth in the city.
- Investment earnings increased by \$2.2 million due to Federal Reserve Board put a pause on the rise of the
 interest rate and the city was able to purchase treasury securities that has a much higher interest yield
 resulting an increase in unrealized gain.

General fund expenditures increased by \$29.4 million (20.8%) compared to the previous fiscal year, the increased costs were primarily due to:

• The \$5.7 million payments for lawsuit settlements, a one-time \$4.7 million payment to PERS for unfunded liability, and a \$4.4 million increase in subscription-based information technology services.

The Fire Protection District special revenue fund has a fund balance of \$26.1 million. The Fire Protection District accounts for all of the operating activities of the Fire District. The fund balance decreased by \$0.4 million during the current fiscal year. Revenues increased \$8.4 million (13.9%) primarily as a result of a higher property valuation assessment. Expenditures increased \$3.4 million (7.9%) primarily as a result in increased contract costs with the San Bernardino County Fire Department for fire protection services due to inflation. Transfers out decreased by \$6.8 million during the year primarily due to the increase in prior fiscal year one time transfer for the fire annex project in the amount of \$8 million.

The Housing Authority special revenue fund has a fund balance of \$87.3 million. The fund balance increased by \$1.4 million during the fiscal year is mainly due to \$0.6 million in restatement, and an increase of \$0.6 million in investment earnings as the federal reserve put a pause on the interest rate hike and the City was able to purchase treasury securities at much higher interest rate.

The Traffic Congestion Relief fund has a total fund balance of \$6.7 million. The fund balance decreased by \$7.6 million during the current fiscal year due to an increase of \$7.6 million expenditures on streets and highway maintenance that are pending to be reimbursed by other government.

The Grants fund has a total deficit fund balance of \$7.8 million. The fund balance decreased by \$6.7 million during the current fiscal year due to City's advance of \$4.0 million for Homelessness Prevention program and \$1.7 million for storm drain and sewer infrastructure at the affordable housing site. These amounts are expected to be reimbursed in fiscal year 2024/25.

The Sewer Expansion Fund has a total fund balance of \$1.6 million. The fund balance increased by \$1.2 million during the current fiscal year due to an increase in investment earnings as the federal reserve put a pause on the interest rate hike and the City was able to purchase treasury securities at much higher interest rate.

The Community Facility Districts Fund has a total fund balance of \$36.4 million. The fund balance increased by \$3.9 million during the current fiscal year mainly due to an increase of \$1.6 million in contribution from property owners as a result of higher property valuation assessment.

The Traffic Mitigation capital project fund has a fund balance of \$23.6 million. The fund balance increased during the current fiscal year by \$1.8 million as a result of increased investment earning as the federal reserve put a pause on the interest rate hike and the City was able to purchase treasury securities at much higher interest rate.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Sewer Operations, Water Operations, and Theater Operations at the end of the year amounted to \$21.1 million. The total increase in net position was \$1.8 million, which is in aligned with the City expectations.

General Fund Budgetary Highlights

Over the course of the year, the City Council revised the City's budget on a quarterly basis. The Council approves supplemental appropriations throughout the year based on individual items that are brought forward by various departments.

Revenues:

During the year, the original General Fund revenue budget was amended to increase revenues by \$3.6 million. The increase is primarily due to:

- an increase in business license of \$2.1 million, because of payments received from delinquent business licenses.
- an increase in Charge for Services of \$0.6 million due to increase in recreations revenues for sports field and courts rentals as well as classes registration. Additionally, an increase in recycled water revenue.

General Fund actual revenues of \$157.8 million were \$4.9 million more than the final budget of \$152.9 million. The positive variance to the final budget was primarily due to:

- higher than expected tax revenues (\$1.2 million) compared to the final budget, which was increased by
 \$2.1 million from the adopted budget as a result of higher business license tax.
- higher than expected investment earnings (\$3.6 million) compared to the final budget due to Federal Reserve putting a pause on the rising interest rate and the city was able to purchase more treasury securities at a higher interest rate thus resulting a higher investment unrealized gain.
- higher than expected licenses and permit (\$0.3 million)
- higher than expected intergovernmental revenue (\$0.2 million)
- lower than expected charges for services (\$0.8 million)

Expenditures:

During the year, the original General Fund expenditure budget was amended to increase appropriations by \$27.3 million, the increase in appropriations was due to various requests throughout the fiscal year such as:

- increase of \$13.0 million for human resources mainly due to \$5.7 increase in various settlement claims, \$4.7 million in PERS for unfunded liability, and other professional services.
- increase of \$4.5 million for information technology department for various subscription-based information technology services and increase in other professional services.
- increase of \$3.6 million for public works/engineering for additional capital acquisition and other professional services.

General Fund expenditures were less than budgeted. Of the total appropriations of \$187.2 million, approximately 8.6%, or \$16.1 million were unspent. The budgetary savings included IT department personnel cost, computer hardware cost, application cost, other professional service cost (total \$2.3 million), personnel cost and other professional services cost in the City administration department (total \$1.3 million), personnel cost and capital cost in the police department (total \$5.4 million), capital cost and other professional services cost in the public works/engineering department (total \$1.8 million), personnel cost in the community development (total \$2.4 million), and HR admin cost and risk management cost (total \$1.8 million). The aforementioned savings will be carried over to next fiscal year.

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for governmental and business-type activities as of June 30, 2024, amounts to \$853.1 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, vehicles and infrastructure (roads, highways, sewer and storm drain systems). The total change in the City's investment in capital assets net of accumulated depreciation for the current fiscal year was an increase of \$42.2 million (5.2%). Major capital asset events during the current fiscal year included the following:

- There was an increase in building and improvements activities mainly due to new property acquisition located at 17133 Valley Blvd. (\$12.4 million), Fire Station #81 (\$9.0 million), and Stage Red renovations (\$4.2 million).
- There was an increase in activities in various CIP projects such as Homelessness prevention resources and care (\$14.7 million), downtown parking structure (\$5.0 million) and pavement rehabilitation (\$5.0 million).
- The City had a onetime purchase of various new lands in the amount of \$7.5 million.
- Accumulated depreciation at year-end is \$41.0 million higher than prior year.

Additional information on the City's long-term liabilities can be found in Note 8 in the footnote disclosure.

Economic Factors and Next Year's Budget and Rates

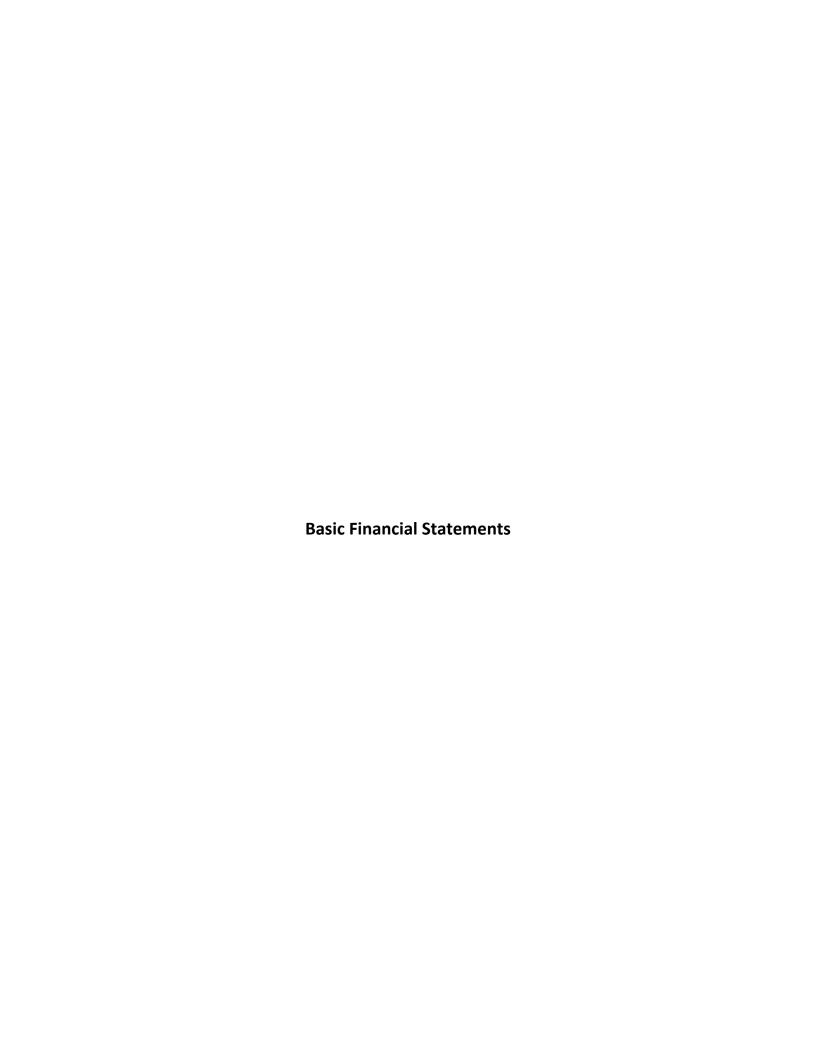

In preparing the budget for Fiscal Year 2024-25, management's goal was to produce an operating budget that adhered to City Council goals and objectives with an emphasis on cost containment. Expansion of the City's economic base continues to be a City Council priority.

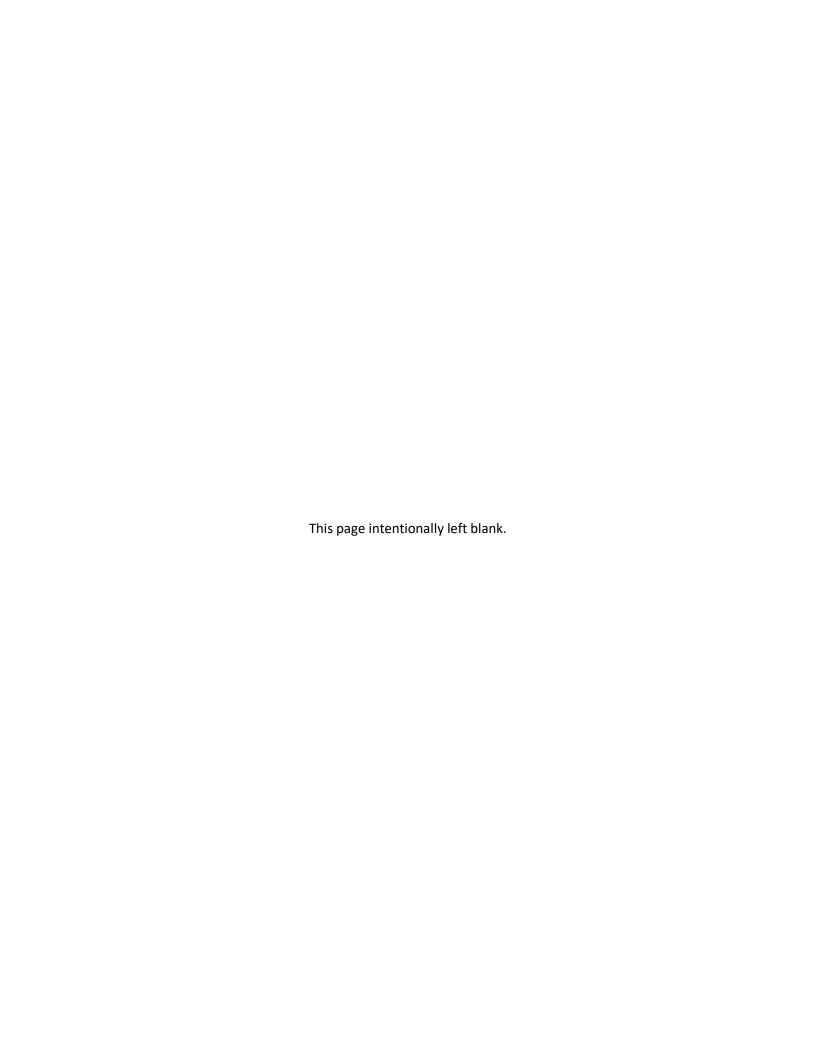

The Operating Budget for Fiscal Year 2024-25 is financially balanced and includes:

- General Fund designation of fund balance for contingencies of 25% of recurring appropriations.
- A net increase in budgeted revenues of \$3.2 million (or +2.2%) in the General Fund as compared to the prior year's final budget is primarily attributed to the following:
 - An increase in sale tax revenue of \$1.2 million reflecting continuing post-pandemic recovery.
 - An increase in property tax revenue of \$1.2 million assuming an anticipated growth of 3 percent in assessed valuations.
 - An increase in recreation revenue of \$0.1 million projecting facilities and programs will be open all year.
- A net decrease in budgeted expenditures of \$1.0 million or (+0.8%) in the General Fund as compared to the prior year's final budget is primarily attribute to contractual obligations related to full-time City staff and the return of part-time staff as facilities reopen and programs resume.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City of Fontana's finances and to show the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City's Finance Department at the City of Fontana, 8353 Sierra Avenue, Fontana, CA 92335.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2024

Fund Balances of Governmental Funds	\$	593,494,063
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets, net of depreciation, have not been included as financial resources in governmental fund activity (excluding internal service funds).		778,723,907
Deferred outflows of resources related to pensions and other postemployment benefits are applicable to future reporting periods and, therefore, are not reported in the funds.		84,302,150
Long-term liabilities, including net pension liability, OPEB liability and compensated absences, are not due and payable in the current period and, therefore, is not recognized in the funds.		(319,892,086)
Accrued interest payable from the current portion of interest due on long-term debt has not been reported in the governmental funds.		(559,167)
Deferred inflows of resources related to pensions and other postemployment benefits are applicable to future reporting periods and, therefore, are not reported in the funds.		(31,217,734)
An Internal Service Fund is used by management to charge the costs of fleet management to individual funds. The assets and liabilities of the Internal Service Fund must be added to the Statement of Net Position.		28,434,852
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		32,455,869
Net Position of Governmental Activities	\$:	1,165,741,854

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2024

Net Change in Fund Balances - Total Governmental Funds		\$ 18,520,552
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization expense in the current period. Activies are net of deletions and transfers. Depreciation/amortization expense Capital outlays	\$ (35,689,908) 83,086,578	47,396,670
Donations of capital assets increase net position in the Statement of Activities, but do not appear in the governmental funds because they are not financial resources.		6,680,574
In the Statement of Activities, only the gain/loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold.		(1,893,748)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as unavailable revenues in the funds.		10,967,758
The issuance of long-term debt provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the net effect of long-term liability increases and payments.		1,093,192
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(936,178)
The Internal Service Fund is used by management to charge the costs of fleet management to individual funds. The net gain of the Internal Service Fund is reported with governmental activities.		4,923,518
Adjustments made to the OPEB liability do not use current financial resources and, therefore, are not recognized in the funds.		3,950,803
Adjustments made to the Net Pension Liability do not use current financial resources and, therefore, are not recognized in the funds.	_	(5,950,117)
Change in Net Position of Governmental Activities	=	\$ 84,753,024

Note 1 - Organization and Summary of Significant Accounting Policies

A. Description of the Reporting Entity

The City of Fontana was incorporated on June 25, 1952, under the laws of the State of California and enjoys all the rights and privileges applicable to a General Law City. It is governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present the City of Fontana (the primary government) and its component units. The City operates under a Council-Manager form of government, and currently provides a wide variety of services to its citizens, including police, public services, community development, general administrative and other services.

The inclusion of an organization within the scope of the reporting entity of the City of Fontana is based on the provisions of GASB Statement No. 14 and amended with GASB Statement No. 61. The blended component units discussed below, although legally separate entities, are in substance part of the government operation and so data from these component units has been combined herein. The following criteria were used in the determination of the blended component unit:

- 1. The members of the City Council also act as the governing body of the Fontana Industrial Development Authority, the Fontana Public Financing Authority, the Fontana Housing Authority (Housing Authority), the Fontana Community Foundation, the Fontana Fire Protection District (Fire District) and the Fontana Public Facilities Financing Authority.
- 2. The Fontana Industrial Development Authority, the Fontana Public Financing Authority, the Fontana Housing Authority, the Fontana Community Foundation, the Fontana Fire Protection District and the Fontana Public Facilities Financing Authority are managed by employees of the City. A portion of the City's general overhead costs is allocated to the Fire District and the Housing Authority.
- 3. The City, the Fontana Industrial Development Authority, the Fontana Public Financing Authority, the Housing Authority, the Fontana Community Foundation, the Fire District and the Fontana Public Facilities Financing Authority are financially interdependent. They provide financial benefit/burden to the City.

Blended Component Units:

<u>The Fontana Industrial Development Authority</u> was established February 3, 1981, pursuant to Government Code Section 91500 of the State of California for the purpose of encouraging and financing industrial development within areas of the City of Fontana. There was no activity for the year being reported therefore the Fontana Industrial Development Authority is not presented in this report.

The Fontana Public Financing Authority was established on May 2, 1989, pursuant to Government Code Section 6500 of the State of California (Joint Exercise of Powers). Its purpose is to assist in the financing of capital improvements and working capital requirements of the City, the Former Redevelopment Agency and any other eligible local agencies. Separate financial statements are not available for the Public Financing Authority.

<u>The Fontana Housing Authority</u> was established May 3, 1994, pursuant to Government Code Section 34240 of the State of California for the purpose of rehabilitating and increasing the low- and moderate-income housing stock in the City of Fontana. Separate financials statements are not available for the Housing Authority.

<u>The Fontana Community Foundation</u> was established on April 27, 2005, pursuant to Section 501(c)(3) of the Internal Revenue Code of 1986 for the purpose of aiding and assisting in the implementation, improvement and maintenance of public services that preserve and promote the health and welfare and education of local citizenry of the City of Fontana. Separate financials statements are not available for the Foundation.

<u>The Fontana Fire Protection District</u> was established on July 1, 2008, pursuant to the State of California Health and Safety Code Section 13800 for the purpose of providing fire suppression, emergency medical, fire prevention and education services within the city limits and the unincorporated area within the District's Sphere of Influence. Separate financials statements are not available for the District.

The Fontana Public Facilities Financing Authority was established on September 9, 2014, pursuant to Government Code Section 6500 of the State of California (Joint Exercise of Powers). Its purpose is to assist in the financing of capital improvements and working capital requirements of the City, the Fontana Fire Protection District and any other eligible local agencies. Separate financial statements are not available for the Public Facilities Financing Authority.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements include a statement of net position and a statement of activities. These statements present summaries of governmental and business-type activities for the City accompanied by a total column. Fiduciary activities of the City are not included in these statements. For the most part, the effect of interfund activities has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period or 180 days for intergovernmental revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The City's fiduciary funds consist of custodial funds, an Other Post Employment Benefits (OPEB) Trust fund, and a private purpose trust fund. Custodial funds account for assets held by the City for other governments or individuals. Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

<u>The General Fund</u> is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>The Fire Protection District Special Revenue Fund</u> accounts for revenues received as part of property taxes, permits, and fees, that are to be used for fire suppression, emergency medical, fire prevention and education services incurred by the District within the City's Sphere of Influence.

<u>The Housing Authority Special Revenue Fund</u> accounts for the assets and activities transferred from the Former Fontana Redevelopment Agency that will be monies to be used to increase and improve the community's supply of low and moderate income housing.

<u>The Economic Stimulus Fund</u> accounts for federal funds received due to COVID-19 to assist in the economic recovery of the City.

<u>Grants Fund</u> – To account for miscellaneous federal, state and county grants requiring segregated fund accounting.

<u>Traffic Congestion Relief</u> – To account for the receipt of voter-approved (Measure I) tax revenue relating to the relief of traffic congestion through maintenance and upkeep of streets and highways.

<u>The Sewer Expansion Fund</u> accounts for revenues received from development impact fees which, in turn, are reported to the Inland Empire Utilities Agency (IEUA) for capital expansion.

<u>The Community Facilities Districts Funds</u> account for activities related to the maintenance of City landscaped areas.

<u>The Traffic Mitigation Capital Project Fund</u> accounts for the revenues received from development impact fees which, in turn, are expended for traffic studies, planning and construction of traffic flow improvements.

The City reports the following major proprietary fund:

<u>The Sewer Operations Fund</u> is used to account for the operation of the City's sewer utility system, a self-supporting activity which renders services on a user charge basis to residences and businesses located in the City.

Additionally, the City reports the following fund types:

Governmental Fund Types

<u>Special Revenue Funds</u> – to account for the proceeds of specific revenue resources (other than major capital projects) that are legally restricted to expenditures for specific purposes.

<u>Debt Service Funds</u> – to account for the accumulation of resources for, and the payment of, long-term debt obligation principal, interest and related costs.

<u>Capital Project Funds</u> – to account for financial resources to be used for the acquisition or construction of major capital facilities.

Proprietary Fund Types

<u>Enterprise Funds</u> – to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the City Council is that the costs (including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

<u>Internal Service Fund</u> – to account for financial transactions related to replacement of City-owned vehicles and equipment. These services are provided to other departments or agencies of the City, on a cost reimbursement basis.

Fiduciary Fund Types

<u>Custodial Funds</u> – to account for assets held by the City for other governments or individuals. These funds include debt service transactions on Community Facilities Districts bonds for which the City is not obligated.

Other Postemployment Benefits (OPEB) Trust - accounts for the assets of the OPEB Trust.

<u>Private Purpose Trust Fund</u> – accounts for the assets and liabilities of the former redevelopment agency and is allocated revenue to pay estimated installment payments of enforceable obligations until obligations of the former redevelopment agency are paid in full and assets have been liquidated.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and the internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and internal service fund include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position or Fund Balance

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the City are reported at fair value. The City's policy is generally to hold investments until maturity or until fair value equal or exceed cost. The State Treasurer's Investment Pool operates in accordance with appropriate State laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Fair Value Measurements

Certain assets and liabilities are required to be reported at fair value. The fair value framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

<u>Level 1</u> – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

<u>Level 2</u> – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly and fair value is determined through the use of models or other valuation methodologies including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are inactive;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

<u>Level 3</u> – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These unobservable inputs reflect the City's own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk). These unobservable inputs are developed based on the best information available in the circumstances and may include the City's own data.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (current portion of interfund loans) or "advances to/from other funds" (the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a non-spendable fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

The City has elected, by ordinance, that the duties of assessing and collecting property taxes be performed by the San Bernardino County Assessor and Tax Collector, respectively. Tax levies cover the period from July 1 to June 30 of each year. All tax liens attach annually on January 1 preceding the fiscal year for which the taxes are levied. Taxes are levied on both real and personal property as of January 1. Secured property taxes are levied against real property and are due and payable in two equal installments. The first installment is due on November 1 and becomes delinquent if not paid by December 10. The second installment is due on February 1 and becomes delinquent if not paid by April 10. Unsecured personal property taxes are due on July 1 each year and become delinquent if not paid by August 31.

Functional Classifications

Expenditures of the Governmental funds are classified by function. Functional classifications are defined as follows:

<u>General Government</u> includes legislative activities which have a primary objective of providing legal and policy guidelines for the City. Also included in this classification are those activities which provide management or support services across more than one functional area.

<u>Public Safety</u> includes those activities which involve the protection of people and property.

<u>Public Works / Engineering</u> includes those activities which provide specialized skills and knowledge in support of the operation of government, involve the maintenance and improvement of City streets, roads and park department development and maintenance.

<u>Community Development</u> includes those activities which enhance the general quality of life and for protective inspections except those related to fire.

Community Services includes those activities which provide all cultural and recreational programs and facilities.

Inventories, Prepaids and Land Held for Resale

All inventories are valued at cost using the first-in, first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventory costs are recorded as expenditures when used.

The General Fund inventory is accounted for using the consumption method and is offset by a reservation of fund balance in the fund-level statements, which indicates that it does not constitute "available spendable resources."

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Land purchased for resale is capitalized as inventory at acquisition cost or net realizable value, if lower.

Leases

At the commencement of the lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources are initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflows of resources are recognized as revenue over the life of the lease term. For additional information, refer to the disclosures in Note 4.

Key estimates and judgments include how the City determines the discount rate it uses to discount the expected lease receipts to present value, lease term and lease receipts.

The City used the estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Restricted Assets

Restricted assets represent unexpended bond proceeds, interest earnings thereon and reserve amounts of certificates of participation, tax allocation bonds, and special assessment bonds. Under the related resolutions and indentures, the remaining proceeds are restricted for the use of future construction of improvements to the respective projects, for debt service or for reserve requirements. The majority of these assets are held by trustees and fiscal agents.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (\$50,000 for intangibles and \$100,000 for infrastructure) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

In accordance with GASB 34, the City has reported general infrastructure assets acquired in prior and current years. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

Asset	Years
Buildings and improvements	40-55 years
Machinery and equipment	3-20 years
Vehicles	5-20 years
Infrastructure	20-30 years
Right to use asset	Shorter of useful life or lease term

Right to use lease assets are recognized at the lease commencement date and represent the City's right to use an underlying asset for the lease term. Right to use lease assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to place the lease asset into service. Right to use lease assets are amortized over the shorter of the lease term or useful lives of the underlying asset using the straight-line method. The amortization period varies.

Right to use subscription IT assets are recognized at the subscription commencement date and represent the City's right to use an underlying IT asset for the subscription term. Right to use subscription IT assets are measured at the initial value of the subscription liability plus any payments made to the vendor at or before the commencement of the subscription term, plus any capitalizable initial implementation costs necessary to place the subscription asset into service. Right to use subscription IT assets are amortized over the shorter of the subscription term or useful life of the underlying asset using the straight-line method. The amortization period varies.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, are transactions that represent a consumption of net position that applies to a future period(s) and are not considered assets. The government has two items that qualify for reporting in this category, deferred outflows related to pensions and OPEB.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and are not considered to be liabilities. The government has four items that qualify for reporting in this category:

1. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for revenues that are measurable but are not collected within 60 days of the end of the current fiscal period or 180 days for certain intergovernmental revenues. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

- 2. Pension related deferred inflows, is reported only on the Statement of Net Position. The government reports deferred inflows of resources related to pensions arising from certain changes in the collective net pension liability.
- 3. OPEB related deferred inflows, is reported only on the Statement of Net Position. The government reports deferred inflows of resources related to pensions arising from certain changes in the collective OPEB liability.
- 4. Lease related deferred inflows, is reported on the governmental balance sheet and the Statement of Net Position. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused personal leave which includes both vacation and sick pay benefits. All personal leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. The General Fund and the Sewer Operations Fund are typically used to liquidate these obligations. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financial sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The City is subject to a legal bonded indebtedness limit of 15 percent of the assessed value of all real and personal property in the City, excluding any bonded indebtedness of the Successor Agency. At June 30, 2024, the City had bonded indebtedness of \$49,425,000 against its debt limit of \$4,525,921,237, which is 1.09 percent of the total limit.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD) June 30, 2022

Measurement Date (MD) June 30, 2023

Measurement Period (MP)

July 1, 2022, to June 30, 2023

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and the OPEB expense, information about the fiduciary net position of the City's plan OPEB plan (OPEB Plan), and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD) June 30, 2022

Measurement Date (MD) June 30, 2023

Measurement Period (MP) July 1, 2022, to June 30, 2023

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

E. Adoption of New Accounting Standard

As of July 1, 2023, the City adopted GASB Statement No. 100, *Accounting Changes and Error Corrections*. The implementation of this standard requires additional presentation and disclosure requirements for accounting changes and error corrections. The financial statements have been updated to the presentation requirements related to the error correction and change within the financial reporting entity in the financial statements for the year ended June 30, 2024. The additional disclosures required by the standard are included in Note 19.

F. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance of governmental funds and net position of governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and, therefore, are not recognized in the funds." The detail of this \$319,892,086 long-term liabilities difference is as follows:

Lease revenue bonds payable	\$ 49,425,000
Loan payables	2,037,010
Claims and judgments	22,333,344
Compensated absences	12,149,286
Lease liability	164,865
SBITA liability	1,562,310
Other postemployment benefits liability	20,658,400
Net pension liability	205,693,159
Bond premium to be amortized	5,868,712
Claims and judgments Compensated absences Lease liability SBITA liability Other postemployment benefits liability Net pension liability	22,333,344 12,149,286 164,865 1,562,310 20,658,400 205,693,159

Net adjustment to reduce *fund balances of governmental* funds to arrive at *net position of governmental activities* \$ 319,892,086

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation states that "the issuance of long-term debt provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term liabilities is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position." The detail of this \$1,093,192 difference is as follows:

Principal repayments: Lease revenue bonds SANBAG loan payable Amortization of bond premium Net change in claims and judgments Net change in lease liability Net change in SBITA liability	\$ (1,830,000) (407,402) (244,977) (251,632) 78,509 1,562,310
Net adjustment to increase net changes in <i>fund balances</i> of governmental funds to arrive at changes in net position of governmental activities	\$ (1,093,192)

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$936,178 is as follows:

Compensated absences	\$ (936,178)
Net adjustment to increase net changes in <i>fund balances</i> of governmental funds to arrive at changes in <i>net position</i> of governmental activities	\$ (936,178)

Note 2 - Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets for governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).

The City uses the following procedures in establishing the budgetary data reflected in the financial statements. After January 1, department heads prepare estimates for required appropriations for the fiscal year commencing the following July 1. The proposed budget includes estimated expenditures and forecasted revenues for the fiscal year. The data is presented to the City Manager for review. Prior to June 1, the City Manager submits to the City Council a proposed operating budget for the upcoming fiscal year. The operating budget includes a summary of the proposed expenditures and financial resources of the City, as well as historical data for the preceding five fiscal periods. Public meetings are conducted at the civic center to obtain taxpayer comments. The City Council adopts the budget by June 30 through passage of an adopting resolution. Budgets were legally adopted for the General, special revenue, debt service and all capital project funds during the fiscal year ended June 30, 2024. This appropriated budget covers substantially all City expenditures. All appropriated amounts shown are as originally adopted or as amended by the City Council. During the year, supplementary appropriations in the Governmental Funds were approved in the amount of \$345,811,539. Additionally, amounts representing projects that were not completed were unappropriated at the end of the year, and reappropriated in the following year. Unexpended appropriations lapse at the year end.

The legal level of control is at the department level. Department heads are authorized to transfer budgeted amounts within their departments, within the same funds, with the approval of the City Manager. Transfers of appropriations between departments and between funds may be made only by authority of the City Council. Formal budgetary integration is employed as a management control device during the fiscal year for all governmental funds.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

All funds with expenditures exceeding appropriations are reviewed by the City as part of its regular quarterly budget report to ensure that adequate revenues and/or other sources are available to cover these expenditures. In the event that revenues and other sources are not sufficient to fund the following year's planned expenditures, the budget for the following fiscal year may be adjusted to ensure that there are no fund balance deficits in any funds. Excess of expenditures over appropriations at the fund level for the fiscal year ending June 30, 2024, are as follows:

	Ex	penditures	Аррі	ropriations	 Excess
General Fund- Debt Service Special Revenue Funds	\$	999,383	\$	77,418	\$ (921,965)
Traffic Safety Fund- Public Works & Engineering		65,379		44,190	(21,189)
Capital Reinvestments - Community Development		7,907,545		65,112	(7,842,433)
Capital Reinvestments - Community Services		22,858		-	(22,858)

A budgetary comparison schedule is not presented for the Down Payment Assistance, Opioid Settlement, Underground Utilities, Prop 1B, and TDA / Article 3 special revenue funds as it did not have a legally adopted annual budget. Budgetary schedules for all other governmental funds are presented in the fund financial statements or the combining and individual fund statements and schedules.

Deficit Fund Balance

As of June 30, 2024, the following funds had deficit fund balances:

Special Revenue Funds		
Grants	\$	7,846,427
TDA		67,690
Housing and Community Development Block Grant		51,048
Community Services Reimbursements		1,086,988
ASES ELO-P		1,596,711
Permanent Local Housing Allocation		47,316
ARPA County		707,360
Fiduciary Funds		
Successor Agency	3	393,910,989

These deficit fund balances will be addressed through future year revenues and transfers.

Note 3 - Cash and Investments

The City follows the practice of pooling cash and investments of all funds except for restricted funds generally held by outside custodians and funds in its employees' deferred compensation plans. Each fund's portion of total cash and investments is summarized by fund type in the combined balance sheet as equity in pooled cash and investments. Amounts in the City's deferred compensation plan are no longer reported on the City's balance sheet as they are held in trust.

Interest income earned on pooled cash and investments is allocated to those funds which are required by law, local ordinance, administrative action or agreements to receive interest. Such allocation is made annually, at a minimum, based on the weighted average cash balances in each fund receiving interest. Interest income from cash and investments, which are restricted, is credited directly to the related fund.

	Cash and Investments	Cash	stricted Assets and Investments h Fiscal Agent	Total		
Governmental activities Business- type activities Fiduciary funds	\$ 520,310,599 25,012,060 54,536,794	\$	71,030,552 - 36,583,169	\$ 591,341,151 25,012,060 91,119,963		
	\$ 599,859,453	\$	107,613,721	\$ 707,473,174		
Cash and investments as of June 30, 2024 co	onsisted of the followi	ng:				
Cash on hand Deposits with financial institutions Investments				\$ 50,000 197,013,082 510,410,092		
				\$ 707,473,174		

Investments and Interest Receivable - Restricted

Restricted assets represent unexpended financing proceeds, interest earnings thereon and reserved amounts of certificates of participation, tax allocation bonds, and special assessment bonds. Under the related resolutions and indentures, the remaining proceeds are restricted for the use of future construction or improvement to the respective projects, for debt service or for reserve requirements. The majority of these assets are held by trustees and fiscal agents.

Authorized Investments

Under the provisions of the City's investment policy and in accordance with Section 53601 of the California Government Code, the City may invest in the following types of investments:

State Treasurer's Local Agency Investment Fund (LAIF) Corporate Obligations (medium-term notes and bonds) U.S. Government Securities Mutual Funds Bankers' Acceptances

Mortgage or Asset-Backed Securities Commercial Paper Certificates of Deposit Negotiable Certificates of Deposit Investment Contracts

It is the City's policy not to invest in Small Business Administration Obligations (SBAs), Repurchase Agreements, Reverse Repurchase Agreements, or Financial Futures and Financial Option Contracts.

Investments Authorized by the City's Section 115 Trusts

Investments of the Pension Trust and the OPEB Plan Trust are governed by the provisions of the separate Trust Agreements, rather than the general provisions of the California Government Code or the City's investment policy. Investments authorized for funds held in the Section 115 Trusts include U.S. and foreign equity, commodities, real estate investment trusts, and bonds. The strategic range for Equity and Fixed Income investments is 40-60% and 38-58%, respectively. There are no limitations on the maximum amount that can be invested in one issuer or the maximum maturity of an investment. For the year ended June 30, 2024, the annual money-weighted rate of return on investments, net of investment expense, was 16.07%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Local Agency Investment Fund (LAIF)

The LAIF is a special fund of the California State Treasury, secured by the full faith and credit of the State of California, through which local governments may pool investments. Each city may invest up to \$75,000,000 in LAIF for each entity. Investments in LAIF are highly liquid as deposits can be converted to cash within twenty-four (24) hours without loss of interest earned to such date.

LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with State statute. The State Treasurer's Office audits the fund annually. The fair value of the position in the State pool is the same as the value of the pool shares. LAIF is not registered with the Securities and Exchange Commission (SEC) and is not rated.

Deposits

At June 30, 2024, the carrying amount of the City's deposits was \$186,606,896 and the bank balance was \$189,082,503. The \$2,475,607 difference represents outstanding checks and other reconciling items.

Disclosures Relating to Credit Risk

The City's investment policy limits investments in medium term notes (MTNs) and federal securities to those in a rating category of "A" or its equivalent or better by Moody's or Standard and Poor's rating service. As of June 30, 2024, the City's investments consisted of the following:

		Ratings as of Year End					
Investment Type	Amount	AAA - Aaa	AA+ - AA-	A - A+	A BBB+	Not Rated	
U.S Government Securities	\$ 20,640,587	\$ 2,373,052	\$ 18,267,535	\$ -	\$ -	\$ -	
Federal Agency Securities	12,774,514	-	-	-	-	12,774,514	
Asset- Backed Securities	28,578,131	28,578,131	-	-	-	-	
Corporate	76,581,840	7,933,065	8,975,045	48,379,923	11,293,807	-	
Municipal Bonds	79,665	-	79,665	-	-	-	
U.S Treasuries	148,929,589	148,929,589	-	-	-	-	
State Investment Pool (LAIF)	82,880,496	-	-	-	-	82,880,496	
Money Market Funds	8,590,468	-	-	-	-	8,590,468	
Section 115 Trust- Pension	12,093,159	-	-	-	-	12,093,159	
Section 115 Trust- OPEB Held by fiscal agents:	26,068,526	-	-	-	-	26,068,526	
Money Market Funds	93,193,117					93,193,117	
	\$ 510,410,092	\$ 187,813,837	\$ 27,322,245	\$ 48,379,923	\$ 11,293,807	\$ 235,600,280	

The City holds investments in Corporate Bonds with various issuers that were downgraded to A- / BBB+, by S&P's Investor Services based on current credit standards. Although the credit ratings were downgraded, the City intends to hold these investments until maturity, presuming that they will either increase in value or hold their current value.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

The California Government Code requires California banks and savings and loan associations to secure an Entity's deposits by pledging government securities with a value of 110% of an Entity's deposits. California law also allows financial institutions to secure Entity deposits by pledging first trust deed mortgage notes having a value of 150% of an Entity's total deposits.

The City Treasurer may waive the collateral requirement for deposits which are fully insured up to \$250,000 by the FDIC. The collateral for deposits in federal and state-chartered banks is held in safekeeping by an authorized Agent of Depository recognized by the State of California Department of Banking. The collateral for deposits with savings and loan associations is generally held in safekeeping by the Federal Home Loan Bank in San Francisco, California, as an Agent of Depository. These securities are physically held in an undivided pool for all California public agency depositors. Under Government Code Section 53655, the placement of securities by a bank or savings and loan association with an "Agent of Depository" has the effect of perfecting the security interest in the name of the local governmental agency. Accordingly, all collateral held by California Agents of Depository are considered to be held for, and in the name of, the local government agency.

As of June 30, 2023, the City's deposits with financial institutions were covered by FDIC up to \$250,000, and the remaining amounts of \$188,832,530 were collateralized as described above.

Concentration of Credit Risk

The City's investment policy imposes restrictions for certain types of investments with any one issuer.

lance the cost Torre	Maximum	Maximum % of Pool	Government Code
Investment Type	Maturity	Allowed	Section
State Treasurer's Local Agency Investment Fund (LAIF)	5 years	75 million/account	16429.1
U.S. Government Securities	5 years	None	53601(b) 53601(f)
California State, California Local			
Government Agencies, and other	5 years	20%	53601(c) 53601(d)
United States State Bonds			53601(e)
Bankers Acceptances	180 days	40%	53601(g)
Commercial Paper	270 days	10%	53601(h)
Negotiable Certificates of Deposit	5 years	30%	53601(i)
Medium-Term Notes	5 years	10%	53601(k)
Pass- Through Securities	5 years	20%	53601(o)
Supranational Obligations	5 years	30%	53601(q)
Certificates of Deposit	5 years	None	53635

With respect to concentration risk, as of June 30, 2024, the City is in compliance with the restrictions of the investment policy.

Investments guaranteed by the U.S. Government and investments in mutual funds and external investment pools are excluded from this requirement.

Interest Rate Risk

The City's investment policy limits investment maturity as a means of managing its exposure to fair value losses arising from increasing interest rates. The City's investment policy states that at least 10% of the City's portfolio shall mature in one year or less. The only exception to this maturity limit shall be the investment of the gross proceeds of tax-exempt bonds. The City has elected to use the segmented time distribution method of disclosure for its interest rate risk.

As of June 30, 2024, the City had the following investments and maturities:

	Investment Maturities								
	6 months		6 months		1 to 3		3 to 5	6 years	Total
	or less		to 1 year		years		years	 or more	Fair Value

Note 4 - Leases

The City is a lessor in noncancellable leases for use of City property for cell towers. The leases are for five years and are required to make fixed monthly payments per month. The leases interest rates range from .31% to 1.70%. Additionally, the City is a lessor in a 55-year noncancellable lease for an apartment unit complex with fixed monthly rent payments starting at \$1,667 per month with annual increase of 2%. The City recognized \$1,039,681 in lease revenue and \$380,980 in interest revenue during the current fiscal year related to these agreements. As of June 30, 2024, the lease receivable is \$15,933,396 and deferred inflows of resources is \$15,028,063.

The City is a lessee in a noncancellable lease for the City's use of vehicles. For further information on the City's lease liability see Note 8.

Note 5 - Receivables

Receivables as of June 30, 2024, for the City's individual major funds and non-major, proprietary major and non-major, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

			Special Revenue			Projects
	General	Fire Protection District	Housing Authority	Traffic Congestion Relief	Sewer Expansion	Traffic Mitigation
Accounts Interest Loans Loans to Successor Agency	\$ 4,694,548 434,814 - 22,555,864	\$ 116,624 151,208	\$ 55,792 4,577,600 72,367,298	\$ - 121,541 -	\$ 110,773 218,847 -	\$ - 295,309 - -
Less allowance for doubtful accounts	27,685,226	267,832	77,000,690	121,541	329,620	295,309
	\$ 27,685,226	\$ 267,832	\$ 77,000,690	\$ 121,541	\$ 329,620	\$ 295,309
	Nonmajor Governmental Funds	Sewer Operations	Nonmajor Enterprise Fund	Internal Service Funds	Fiduciary Funds	Total
Accounts Assessments Interest Loans Loans to Successor Agency	\$ 158,340 420,669 2,566,239 10,998,681	\$ 1,408,015 - 167,656 2,081,888 3,305,829	\$ 22,940 4,958 1,090,124	\$ 143,878 - 115,504 - -	\$ - 242,575 1,125,390 2,233,105	\$ 6,710,910 663,244 9,779,066 88,771,096 25,861,693
	14,143,929	6,963,388	1,118,022	259,382	3,601,070	131,786,009
Less allowance for doubtful accounts	101,795	3,305,829			1,971,279	5,378,903
	\$ 14,042,134	\$ 3,657,559	\$ 1,118,022	\$ 259,382	\$ 1,629,791	\$ 126,407,106

Due to the uncollectability of the loans to the Successor Agency, an allowance for doubtful accounts has been recorded at June 30, 2024 for the loans that are pending approval by the State Department of Finance as enforceable obligations. An allowance has been recorded for these loans in the amount \$3,305,829 in Sewer Operations funds. This allowance will remain in place until the State Department of Finance makes further determinations regarding the probability of collection on the loan balances. Several loans have been approved by the State Department of Finance; thus, an allowance has not been recorded for the loans in the amounts of \$22,555,864 in the General Fund.

Note 6 - Capital Assets

Capital asset activity for the year ended June 30, 2024, was as follows:

Note 7 - Interfund Receivables, Payables and Transfers

The composition of interfund balances as of June 30, 2024, is as follows: Due to/from other funds:

Due to/from other funds

Receivable Fund	Payable Fund	 Amount
General Fund	Major Governmental Funds	
	Community Facilities Districts	\$ 6,468,703
	Grants	4,487,807
	Traffic Congestion Relief	9,585,239
	Non-major Governmental Funds	
	Permanent Local Housing Allocation	41,018
	TDA	192,500
	Community Facilities Districts	15,736
	Housing and Community Development Block Grant	777,489
	Community Services Reimbursements	1,774,149
	ASES ELO-P	1,504,350
	ARPA County	674,999
	Non-major Enterprise Funds	
	Stage Red	 4,426
	Total	\$ 25,526,416

The amounts due to the General Fund are the result of negative cash balances at the end of the year.

Advance to/from other funds

Receivable Fund	Payable Fund	Amount
Non-major Governmental Funds Future Capital Projects	Major Governmental Funds Traffic Mitigation Non-major Governmental Funds	\$ 26,691,542
	Capital Improvements	1,717,369
	Total	\$ 28,408,911

The advances from Future Capital Projects to the Capital Improvements fund are representative of a cooperative agreement entered into with the City of Ontario for the Etiwanda Avenue and Slover Avenue / Airport Drive Intersection Project. The City has agreed to pay for the City of Ontario's DIF share of the project. The City of Ontario will reimburse the City three years after the project construction has been accepted.

The advances from Future Capital Projects to the Traffic Mitigation fund are representative of cooperative agreements entered into with San Bernardino Associated Governments (SANBAG) for various transportation projects throughout the City. SANBAG will repay the amounts owed to the Measure I 2010-2040 fund over a thirty-year period, as Measure I funds are collected. As part of the cooperative agreement, the City was required to fund a certain percentage of each project with Development Impact Fees (DIF) collected in the Traffic Mitigation fund. In order to complete these projects now rather than over a thirty-year period, various funds advanced the SANBAG share and DIF share of each project. There is no repayment schedule for these advances as the amounts will be repaid as collections are received.

Interfund transfers:

Interfund transfers primarily consist of allocation of administrative costs, transfer of funding to capital project funds, and transfer of funding to general debt service fund.

Lease Revenue Bonds

2014 Lease Revenue Bonds

In November 2014, the Fontana Public Facilities Financing Authority issued \$37,675,000 of Lease Revenue Bonds. The proceeds of the issue were used to refinance 2007 Lease Revenue Bonds with an outstanding balance of \$29,890,000. The bonds pay interest semi-annually at rates ranging from 3.875% to 5.00% and mature from September 2015 through September 2037. Principal and interest payments are made from the lease income for certain real property and the improvements thereon.

2021 Lease Revenue Bonds

In November 2021, the Fontana Public Facilities Financing Authority issued \$23,125,000 of Lease Revenue Bonds. The proceeds of the issue were used to refinance 2010 Lease Revenue Bonds with an outstanding balance of \$5,075,000, finance the acquisition, construction and installation of certain public capital improvements and pay the costs of issuing the Lease Revenue bonds Series 2021A Bonds. The bonds pay interest semi-annually at rates of 4.00% and mature from November 2022 through November 2048. Principal and interest payments are made from the lease income for certain real property and the improvements thereon.

SANBAG Loan Payable

The City entered into an agreement with San Bernardino Associated Governments "SANBAG" for the I-15 Duncan Canyon Interchange Project. Under the agreements, SANBAG contributed \$12.0 million of State Proposition 1B Corridor Mobility Improvement funds to the project. A portion of the SANBAG loan is required to be paid back, totaling \$4,074,021. The City has seven years to pay back the amount without interest.

Subscription Based Information Technology Arrangements (SBITAS)

The City has entered into ten SBITA contracts for the use of various software platforms. The City is required to make principal and interest payments through June 2027. The SBITA liability was valued using discount rates between 2.180% and 3.631% based on the City's incremental borrowing rate at the inception of the SBITAs. The total amount of right to use subscription assets, and the related accumulated amortization on right to use subscription assets was \$4,040,606 and \$1,344,580, as of June 30, 2024, respectively.

Remaining principal and interest on SBITAS are as follows:

Fiscal Year	SBITAS

Lease Liability

The City is a lessee in a noncancellable lease for the City's use of vehicles. The lease terms are in five-year terms. The lease liability was valued using discount rates ranging from .6320% to 3.445% based on the City's incremental borrowing rate at the inception of the lease. The total amount of the right to use asset and the related accumulated amortization on the right to use asset was \$318,661 and \$111,815, respectively.

Loan Payable-San Bernardino Trunk Sewer Loans

In March 2007, the City received approval from the State of California Water Resources Control Board for the San Bernardino Trunk Sewer Project. The Project was funded by the State Revolving Fund on a reimbursement basis for construction costs incurred in relation to the project. The project was done in three phases, with each of the three phases being funded by a separate loan from the State Revolving Fund. The loans will be repaid in annual installments. As of June 30, 2024, the loan payable is \$3,947,736.

Mello-Roos Community Facilities Districts

Between 1988 and 2024, twenty- two Community Facilities Districts have issued Special Tax Bonds. The bonds are authorized pursuant to the Mello- Roos Community Facilities Act of 1982 and are secured by and payable solely from the revenues of an annual special assessment tax levied against land within the Districts. The bonds are not backed by the full faith and credit or taxing power of the City and do not constitute indebtedness of the City. The City is not liable for the bonds, but acts as an agent for the bondholders in collecting the assessments from property owners, forwarding the collections to bondholders and initiating foreclosure proceedings if necessary.

The transactions occurring as a result of the City acting in an agent capacity are being accounted for in a custodial fund. As the bonds are financing the construction and installation of certain public improvements, the transactions relating to the construction of the improvements are being accounted for in capital project funds. The bonds are not reflected as an indebtedness of the City at June 30, 2024.

Special Tax Bonds	Date of Issue	Original Issue Amount	Outstanding Amount at June 30, 2024

Note 9 - Risk Management

The City established risk management programs for workers' compensation in 1978-79 and for general liability in 1983-84. The programs are accounted for within the General Fund and are supported by contributions from the other principal City funds.

Effective with an excess coverage insurance policy on July 1, 1992, the workers' compensation program provides for self-insurance up to a maximum of \$1,000,000 per incident. The claims which exceed the limit are insured up to a maximum per incident of \$45,000,000.

Under the City's excess insurance policy for general liability, all claims incurred after October 1, 1992, are self-insured up to a maximum of \$1,000,000 per incident. The claims which exceed the limit are insured up to maximum per incident of \$25,000,000. The City is self-insured for general liability claims incurred prior to October 1, 1992.

There have been no significant changes in insurance coverage in the last four years. The amount of settlements has not exceeded the amount of insurance coverage for each of the past three fiscal years.

Liabilities under the City's self-insurance programs are accrued and charged to expenses when claims are reasonably determinable and when the existence of the City's liability is probable. The accrued liabilities for general liability include an estimate of incurred but not reported claims. The following is a summary of the changes in the claims liability over the past two fiscal years:

Claims payable, June 30, 2022	\$ 20,654,000
Claims incurred (including IBNRs) Claims paid/ dismissed	6,946,328 (5,015,352)
Claims payable, June 30, 2023	22,584,976
Claims incurred (including IBNRs) Claims paid/ dismissed	7,258,966 (7,510,598)
Claims payable, June 30, 2024	\$ 22,333,344

There are several other legal actions pending against the City which management considers incidental to normal operations. These actions are not covered by insurance. All liabilities to be accrued are included in the claims and judgments amount stated above.

Note 10 - Litigation

The City of Fontana has been named as a defendant in numerous lawsuits and claims arising in the course of operations. In the aggregate, these claims seek monetary damages in significant amounts. To the extent the outcome of such litigation has been determined to result in probable financial loss to the City, such loss has been accrued in the accompanying financial statements.

Note 11 - Jointly Governed Organization

I.R.N.E.T.

The City of Fontana is a member of Inland Regional Narcotics Enforcement Team (I.R.N.E.T.), a joint powers authority of the police departments of ten cities in San Bernardino and Riverside Counties, and participating county, federal and state law enforcement agencies. The organization was formed September 18, 1989, with the mission to promote coordinated law enforcement efforts and to address emerging criminal justice issues, mainly in the areas of drug trafficking and money laundering. The executive council consists of police chiefs of the cities and resident agents in charge of the federal and state law enforcement agencies. All financial decisions were made by the executive council. The members received monetary distributions from the asset seizures based on their respective contribution to the effort. Financial information for I.R.N.E.T. is not available.

Note 12 - Other Post-Employment Benefits Liability

Plan Description

In addition to the pension benefits described in Note 13, the City administers a single employer defined-benefit post-employment healthcare plan (the Plan). Dependents are eligible to enroll, and benefits continue to surviving spouses. Eligibility for lifetime retiree health benefits requires retirement from the City on or after reaching age 50 (age 52 for PEPRA New Hires) with at least five years of PERS-credited service. The City subsidizes the benefit depending on the date of hire and years of services with the City at retirement. Retirees are responsible for the cost of coverage above the City subsidy. Spousal coverage is offered at retirement. No City-subsidized vision or life insurance benefit is offered. Additional requirements are set forth in the individual contracts for executive positions or in the Memorandum of Understanding (MOUs) for the five bargaining units operating within the City. The amount the City provides on the behalf of retirees is dictated in the contracts or MOUs.

Employees Covered

As of the June 30, 2023, measurement date, the following current and former employees were covered by the benefit terms under the OPEB Plan:

572
234
806

Contributions

The required contribution is based on projected pay-as-you-go financing requirements. For the fiscal year ending June 30, 2024, the City's cash contributions were \$2,355,211 in the form of current premiums, which is funded through the General Fund, and the estimated implied subsidy was \$679,629 resulting in total payments of \$3,034,840.

OPEB Liability

The City's OPEB liability was measured as of June 30, 2023, and was determined by an actuarial valuation based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions	
Discount Rate	6.00%
Inflation	2.30%
Salary Increases	2.80% per annum, in aggregate
Mortality Rate	Derived using CalPERS' Membership Data for all funds
Pre- Retirement Turnover	Derived using CalPERS' Membership Data for all funds
	Based on 2021 Getzen model that reflects actual premium increases through 2023
Healthcare Trend Rate	followed by 7.40% Pre- Medicare/ 4.2% Medicare, gradually decreasing to an ultimate rate of 4.14% in 2075.

Discount Rate

The discount rate used to measure the total OPEB liability was 6.00 percent. GASB 75 allows the use of a discount rate that is up to the expected long-term rate of return on the assets in the trust set aside to pay benefits, if the plan sponsor makes regular contributions to the trust, such that the assets are not depleted at any point in the future. The OPEB plan assets are expected to be invested using a strategy to achieve the long-term rate of return.

Changes in the OPEB Liability

The changes in the OPEB liability for the OPEB Plan are as follows:

	Total OPEB Liability	Increase (Decrease) Plan Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2023	ć 40.446.264	ć 24 FF2 400	ć 40.002.762
(Measurement Date June 30, 2022)	\$ 40,446,261	\$ 21,553,499	\$ 18,892,762
Changes recognized for the measurement period:	240,460		240.460
Service cost	349,468	-	349,468
Interest	2,356,699	-	2,356,699

Balance at June 30, 2024			
(Measurement Date June 30, 2022)	\$ 44,028,993	\$ 22,695,094	\$ 21,333,899

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the OPEB liability of the City if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2023:

		Current	
	1% Decrease (5.00%)	Discount Rate (6.00%)	1% Increase (7.00%)
OPEB Liabiliity	\$ 25,678,178	\$ 21,333,899	\$ 17,610,131

Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the net OPEB liability of the City if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2023:

	1% Decrease (6.40% decreasing to 3.14%)	(6.40% decreasing (7.40% decreasing (8.40%	
Net OPEB Liabiliity	\$ 17,457,588	\$ 21,333,899	\$ 25,860,300

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2024, the City recognized OPEB expense of \$555,099. As of fiscal year ended June 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	 rred Outflows Resources	Deferred of Resc	
OPEB contributions subsequent to measurement date Changes of assumptions Net difference between projected and actual earnings	\$ 3,524,890 7,529,782	\$ 20,68	- 85,607
on OPEB plan investments Differences between expected and actual experience	 1,886,709 6,277,017	11,00	- 64,549
Total	\$ 19,218,398	\$ 31,7	50,156

The \$3,524,890 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2023, measurement date will be recognized as a reduction of the net OPEB liability during the fiscal year ending June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as OPEB expense as follows:

Measurement Period Ended June 30,	Deferred Outflows/(Inflow of Resources	
2024	\$	(1,976,502)
2025 2026		(1,976,502) (1,976,500)
2027		(2,567,227)
2028		(2,595,860)
Thereafter		(4,964,057)

OPEB Fiduciary Plan- GASB 74

The following information is provided for the OPEB plan in accordance with GASB 74. The OPEB Fiduciary Plan is the same Plan as reported above, however, the Scope of GASB 74 includes the OPEB Fiduciary Trust. In addition, the reporting periods differ and, as such, the financial information is different. Certain information requiring footnote disclosure is repetitive.

The OPEB Plan is administered by the City and is presented in the statements of fiduciary net position and change in fiduciary net position. The net OPEB plan liability and asset information is reported within certain defined timeframes as listed below:

Valuation Date:	June 30, 2023
Measurement Date:	June 30, 2024
Report Date:	June 30, 2024

At June 30, 2023 (census date), the benefits terms covered the following employees:

Active employees	572
Inactive employees, spouses, or beneficiaries currently receiving benefit payments	234
Total	806

Actuarial Assumptions

The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions:

Discount Rate	6.00%
Investment Rate of Return	6.00%
Inflation	2.30%
Salary Increases	2.80%
Mortality Rate	Based on CalPERS Tables
Healthcare Trend Rate	
Pre-Medicare	6.80%*
Medicare	4.17%*

^{*} Trending down to 4.14% over 51 years. Applies to Calendar years. Experience studies come from the CalPERS Pension Assumption Model, effective November 17, 2021.

Discount Rate

The discount rate used to measure the total OPEB liability was 6.00 percent. GASB 75 allows the use of a discount rate that is up to the expected long-term rate of return on the assets in the trust set aside to pay benefits, if the plan sponsor makes regular contributions to the trust, such that the assets are not depleted at any point in the future. The OPEB plan assets are expected to be invested using a strategy to achieve the long-term rate of return.

Long Term Expected Rate of Return

The expected long-term real rate of return of the OPEB Trust is 6.00% as of June 30, 2023 as provided by the Plan Sponsor's investment advisor. This rate of return was determined using a building-block method in which best-estimate ranges of expected future real rates of return net of investment expense are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target allocation percentage. The Plan Sponsor's expected future real rates of return by asset class is shown below:

Asset Class ¹	Target Allocation	Expected Long-Term Real Rates of Return
U.S. Large Cap Equitites	26.00%	5.40%
Emerging Large Cap Equities	4.00%	7.70%
Global ex-U.S. Large Cap Equities	18.50%	6.50%
U.S. Small Cap Equities	1.50%	4.40%
U.S. Aggregate Bonds	43.50%	1.10%
U.S. Inflation-Linked Govt Bonds	6.50%	1.60%
Total	100.00%	

¹ An expected inflation of 2.30% used for this period.

The Plan's expected return is weighted by the Plan's expected cash flow.

Net OPEB Liability of the City

The components of the net OPEB liability of the City at June 30, 2024, were as follows:

	Total OPEB Liability	Increase (Decrease) Plan Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2023 Changes for the year	\$ 44,028,993	\$ 22,695,094	\$ 21,333,899

Benefit Payments	(2,590,890)	(2,590,890)	-
Implicit Subsidy Credit	(934,000)	(934,000)	-
Administrative expense		(36,018)	36,018
Net Changes	(542,736)	3,609,232	(4,151,968)
Balance at June 30, 2024	\$ 43,486,257	\$ 26,304,326	\$ 17,181,931

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rates

The net OPEB liability of the City, as well as what the City's net OPEB liability would be if it was calculated using a discount rate that is one percentage point lower (5.00%) or one percentage point higher (7.00%) follows:

		Current		
	1% Decrease (5.00%)	Discount Rate (6.00%)	1% Increase (7.00%)	
Net OPEB liability	\$ 21,412,258	\$ 17,181,931	\$ 13,544,182	

The net OPEB liability of the City, as well as what the City's net OPEB liability would be if it was calculated using a healthcare cost trend rate that is one percentage point lower (5.80%) or one percentage point higher (7.80%) follows:

	Current		
	1% Decrease (5.80%)	Discount Rate (6.80%)	1% Increase (7.80%)
Net OPEB liability	\$ 13,005,703	\$ 17,181,931	\$ 22,063,778

Note 13 - Pensions

As of and for the year ended June 30, 2024, the City's pension plan had the following balances reported in the government-wide financial statements.

	Safety Plan	Miscellaneous Plan	Total
Net pension liability	\$ 134,002,270	\$ 76,408,744	\$ 210,411,014
Pension expense	21,061,913	13,975,274	35,037,187
Deferred outflows of resources	41,234,561	26,067,227	67,301,788
Deferred inflows of resources	61,772	438,172	499,944

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Local Government's separate Safety (police and fire) and Miscellaneous (all other) Plans, an agent multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the Plan's June 30, 2022, Annual Actuarial Valuation Report (funding valuation). Details of the benefits provided can be obtained in Appendix B of the actuarial valuation report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. The Plans' provisions and benefits in effect at June 30, 2024, are summarized as follows:

Hire Date
Benefit formula
Final Average Compensation Period
Benefit vesting schedule
Benefit payments
Retirement age
Monthly benefit basis

Safety		Miscellaneous		
Tier I	Tier II	Tier III		_

Employees Covered

As of the June 30, 2023, measurement date, the following employees were covered by the benefit terms for each Plan:

	Safety	Miscellaneous
Inactive employees or beneficiaries currently receiving benefits Inactive employees entitled to but	208	557
not yet receiving benefits	73	1013
Active employees	189	502
Total	470	2072

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions; payments made by the employer are paid from the General Fund of the City.

Actuarial Methods and Assumptions used to determine Total Pension Liability

The June 30, 2022, valuation was used to determine the June 30, 2023, total pension liability, based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Actuarial Cost Method	
Actuarial Assumptions		
Discount Rate	6.90%	
Inflation	2.30%	
Salary Increases	Varies by Entry Age and Service	
Mortality Rate Table ¹	Derived using CalPERS' Membership Data for all funds	
Post Retirement Benefit Increase	The lesser of contract COLA or 2.30% until Purchasing Power Protection Allowance floor on purchasing power applies, 2.30% thereafter	

¹ The mortality table used was developed based on CalPERS' specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from November 2021. The Experience Study report may be accessed on the CalPERS website at www.calpers.ca.gov under Forms and Publications.

Change of Assumptions

There were no assumption changes in 2023. Effective with the June 30, 2021, valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions.

Discount Rate

The discount rate used to measure the total pension liability was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 Basis points. The expected real rates of return by asset class are as follows:

Asset Class ¹	Assumed Asset Allocation	Real Return ^{1, 2}
Global Equity - Cap weighted	30.0%	4.54%
Global Equity - Non-Cap weighted	12.0	3.84
Private Equity	13.0	7.28
Treasury	5.0	0.27
Mortgage-backed Securities	5.0	0.5
Investment Grade Corporates	10.0	1.56
High Yield	5.0	2.27
Emerging Market Debt	5.0	2.48
Private Debt	5.0	3.57
Real Assets	15.0	3.21
Leverage	(5.0)	(0.59)

¹An expected inflation of 2.30% used for this period.

² Figures are based on the 2021 Asset Liability Management study.

Pension Plan Fiduciary Net Position

The plan fiduciary net position (assets) disclosed in the GASB report may differ from the plan assets reported in the actuarial valuation report due to several reasons. First, CalPERS must keep Reserves for Deficiencies and Fiduciary Self Insurance. These amounts are excluded for rate setting purposes in the actuarial valuation report while required to be included for GASB reporting purposes. In addition, differences may result from early ACFR closing and final reconciled reserves.

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports. These reports are publicly available reports that can be obtained at https://www.calpers.ca.gov/page/investments/about-investment-office/investment-financial- reports.

Liability, Expense and Deferred Outflows/Inflows

The components of the net pension liability at June 30, 2024, are as follows:

Total Pension Liability Plan's Fiduciary Net Position	\$ 644,425,967 434,014,953
Net Pension Liability	\$ 210,411,014
Plan Fiduciary Net Position as a Percentage of Total Pension Liability	67.35%

Pension Expense

At June 30, 2024, the City recognized pension expense for CalPERS of \$35,037,187.

Changes in Net Pension Liability

The following table shows the changes in net pension liability recognized over the measurement period for the Safety plan:

, ·	Increase (Decrease)			
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (c) = (a) - (b)	
Balance at: 6/30/2022 (VD)	\$ 347,319,078	\$ 215,438,515	\$ 131,880,563	
Changes Recognized for the Measurement Period				
Service Cost	7,548,406	-	7,548,406	
Interest on the Total Pension Liability	23,827,606	-	23,827,606	
Changes of Benefit Terms	95,168	-	95,168	
Differences between Expected and Actual Experience	1,753,953	-	1,753,953

Benefit Payments, including Refunds of				
Employee Contributions	(12,392,248)	(12,392,248)	=	
Administrative Expense		(141,076)	141,076	
Net Changes during 2022-23	14,718,540	10,855,066	3,863,474	
Balance at: 6/30/2023 (MD)	\$ 279,111,319	\$ 202,702,575	\$ 76,408,744	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the Measurement Date, calculated using the discount rate of 6.90 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (5.90 percent) or one percentage-point higher (7.90 percent) than the current rate:

	Disc	count Rate - 1% (5.90%)	Curre	nt Discount Rate (6.90%)	Disc	ount Rate + 1% (7.90%)
Plan's Net Pension Liability Safety	\$	187,272,573	\$	134,002,270	\$	90,676,816
Plan's Net Pension Liability Miscellaneous	\$	116,810,263	\$	76,408,744	\$	43,510,074

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred inflows and deferred outflows to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings	5 year straight-line amortization
All other amounts	Straight-line amortization over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired as of the beginning of the measurement period).

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired).

The EARSL for the Safety Plan for the measurement period ending June 30, 2023, was 5.2 years, which was obtained by dividing the total service years of 2,444 (the sum of remaining service lifetimes of the active employees) by 470 (the total number of participants: active, inactive, and retired). Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

The EARSL for the Miscellaneous Plan for the measurement period ending June 30, 2023, was 3.0 years, which was obtained by the total service years of 6,132 (the sum of remaining service lifetimes of the active employees) by 2,072 (the total number of participants: active, inactive, and retired). Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the measurement period ending June 30, 2023 (the measurement date), the City of Fontana recognized a pension expense of \$21,061,913 for the Safety Plan.

As of June 30, 2024, the City of Fontana reports other amounts for the Safety Plan as deferred outflow and deferred inflow of resources related to pensions as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources		
Pension contributions subsequent to measurement date	\$ 18,083,424	\$ -		
Differences between Expected and Actual Experience Changes of assumptions	4,079,554 8,790,089	(61,772) -		
Net difference between projected and actual earnings on pensions plan investments	10,281,494			
Total	\$ 41,234,561	\$ (61,772)		

Employer contributions of \$18,083,424 were made after the measurement date of the net pension liability but before the end of the fiscal year; these contributions are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ended June 30,	Deferred Outflows/(Inflows) of Resources			
2024 2025	\$ 6,800,020 4,769,029			
2026	10,050,637			
2027	1,402,221			
2028	67,458			
Thereafter	-			

For the measurement period ending June 30, 2023 (the measurement date), the City of Fontana recognized a pension expense of \$13,975,274 for the Miscellaneous Plan.

As of June 30, 2024, the City of Fontana reports other amounts for the Miscellaneous Plan as deferred outflow and deferred inflow of resources related to pensions as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources		
Pension contributions subsequent to measurement date Differences between Expected and Actual	\$ 11,412,285	\$ -		
Experience Changes of assumptions	2,014,541 3,531,044	(438,172) -		
Net difference between projected and actual earnings on pensions plan investments	9,109,357			
Total	\$ 26,067,227	\$ (438,172)		

Employer contributions of \$11,412,285, were made after the measurement date of the net pension liability but before the end of the fiscal year; these contributions are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Deferred Outflows/(Inflows) of Resources		
\$ 5,434,139		
2,245,775		
6,280,522		
256,334		
-		
-		

Note 14 - Public Agency Retirement Services

For some City employees (regular-part-time employees) that do not qualify for inclusion in the CalPERS pension plans administered by the City, the City offers an alternative plan, the Public Agency Retirement Services Alternate Retirement System Plan (PARS ARS). Employees are enrolled, on a voluntary basis, in this defined contribution plan; the plan requires a minimum contribution of 7.5% of the employee wages and are paid by the employees only. There is no annual expense to the City for this benefit.

Note 15 - Classification of Fund Balances

In the fund financial statements, government funds report the following fund balance classification:

<u>Nonspendable</u> include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

<u>Restricted</u> include amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws or regulations of other governments or (b) by law through constitutional provisions or enabling legislation.

<u>Committed</u> include amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest authority, the City Council. The formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is resolution.

<u>Assigned</u> include amounts that are constrained by the government's intent to be used for specific purposes but are neither restricted nor committed. The Chief Finance Officer is authorized to assign amounts to a specific purpose, which was established by the governing body in Administrative Policy # 20-32.

<u>Unassigned</u> include the residual amounts that have not been restricted, committed, or assigned to specific purposes.

The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. In governmental funds other than the General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

An individual governmental fund could include nonspendable resources and amounts that are restricted or unrestricted (committed, assigned, or unassigned) or any combination of those classifications. Restricted amounts are to be considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and committed, assigned, then unassigned amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

The details of the fund balances as of June 30, 2024, are presented below:

		Special Revenue			Capital Project					
	General	Fire Protection District	Housing Authority	Economic Stimulus	Grants	Traffic Congestion Relief	Sewer Expansion	Community Facilities Districts	Traffic Mitigation	Other Governmental Funds

Adequate reserve levels are a necessary component of the City's overall financial management strategy and to provide for the orderly provision of services to the citizens of the City of Fontana. Those necessary components are as follows:

- Local disasters and other hardships or downturns in the local economy
- Contingencies for unforeseen operating or capital needs

The balance of these components as of June 30, 2024, is \$33,087,836 and is included in the committed fund balance in the General Fund.

Note 16 - Fontana Fire Protection District

The Fontana Fire Protection District (the District) was formed on July 1, 2008 pursuant to the State of California Health and Safety Code commencing with Section 13800, for the purpose of providing fire protection services. The District is a component unit of the City of Fontana; the City of Fontana has oversight responsibility of the District determined by criteria such as financial interdependency, selection of governing authority and designation of management, budget control, ability to significantly influence operations, etc.

The accounts of the District have been included within the scope of the basic financial statement of the City because the City Council has financial accountability over the operations of the District. The following information is relative only to the District as a component unit, which is an integral part of the total reporting entity.

The District reports the following governmental funds:

<u>The Fire Protection District Special Revenue Fund</u> accounts for the cost of fire suppression, emergency medical, fire prevention and education services incurred by the District within the City's Sphere of Influence.

<u>The Fire Protection District CFD Special Revenue Fund</u> accounts for the special taxes levied on property developed after January 2, 2001, to finance fire protection and suppression services within the Community Facilities District.

<u>The Fire Protection District Capital Project Fund</u> accounts for the money expended on capital improvements and equipment replacement for the District.

A. Cash and investments

As of June 30, 2024, the District reported \$58,812,168 as cash and investments.

The District's funds are pooled with the City of Fontana's cash and investments in order to generate optimum interest income. Each fund's share of the pooled cash account is separately accounted for, and investment income is allocated to all participating funds based on the relationship of their average daily cash balances to the total of the pooled cash and investments. Information regarding the authorized types of deposits and investments, the type of risks (i.e. credit, interest rate, custodial, etc.) and other disclosures associated with the City's pooled cash and investment is included in Note 3.

B. Capital Assets

An analysis of capital assets as of June 30, 2024, follows:

	Balance June 30, 2023	Increases	Decreases	Balance June 30, 2024
Capital assets, not being depreciated				
Land	\$ 1,122,000	\$ 952,979	\$ -	\$ 2,074,979
Total capital assets, not being depreciated	1,122,000	952,979		2,074,979
Capital assets, being depreciated				
Buildings and improvements	16,427,503	10,738,459	-	27,165,962

Total Capital assets, net	\$ 18,385,544	\$ 11,076,834	\$ -	\$ 29,462,378

Depreciation expense was charged to functions/programs of the primary government as follows: Governmental Activities:

Governmental Activities Public safety - fire protection

\$ 1,432,994

C. Long-Term Debt

The District does not have any outstanding debt as of June 30, 2024.

D. Fund Balance

The district reports fund balances in accordance with the classifications consistent with the City, see Note 15 for more information on the types and descriptions of the fund balance classifications. The details of the fund balances as of June 30, 2024, are presented below:

	Special F	Revenue	Capital Project	
	Fire Protection District	Fire Protection District CFD	Fire Protection District	Totals
Fund Balances Restricted Public safety	\$ 26,071,890	\$ 4,913,899	\$ -	\$ 30,985,789
Assigned Equipment replacement			\$37,904,324	37,904,324
Total fund balances	26,071,890	4,913,899	37,904,324	68,890,113

E. Fire Protection Services Agreement

The District entered into a fire protection services agreement with the San Bernardino County Fire Protection District (County) effective July 1, 2018 for a period of twenty (20) years. The agreement calls for the County to provide to the District fire prevention, fire investigation, fire suppression, advance life support services, ambulance transportation service, hazardous materials, and rescue services. The District paid \$42,903,405 to the County for these services during the fiscal year ending June 30, 2024. The County also provides various administrative duties including billing and collecting of advanced life support and ambulance transportation fees for the District. The District leased its real property, furniture and fixtures, and fire apparatus and equipment to the County for one dollar for the life of the contract. The agreement calls for the County to maintain insurance for workers compensation, comprehensive general and automobile.

The details of the contract expenses for the fiscal year ending June 30, 2024, are as follows:

Salaries and benefits	\$ 35,147,960
Services and supplies	4,594,001
Station expenses	1,760,804
Fire Prevention services	311,290
County contract management fee	1,524,291
CPI-U Adj	(434,941)
Total contract expenses	\$ 42,903,405

Note 17 - Successor Agency Trust for Assets of Former Redevelopment Agency

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("the Bill") that provided for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City of Fontana that previously had reported a redevelopment agency within the reporting entity of the City as a blended component unit. In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011) all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012.

The Bill provides that upon dissolution of a redevelopment agency, either the city or another unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local government. On January 10, 2012, the City Council elected to become the Successor Agency for the former redevelopment agency in accordance with the Bill as part of City resolution number 2012-001.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

The Bill directs the State Controller of the State of California to review the propriety of any transfers of assets between redevelopment agencies and other public bodies that occurred after January 1, 2011. If the public body that received such transfers is not contractually committed to a third party for the expenditure or encumbrance of those assets, the State Controller is required to order the available assets to be transferred to the public body designated as the successor agency by the Bill. This review was completed October 2014 and identified \$7,124,646 in unallowable transfers. The City has contended all unallowable transfers; however, the State Controller upholds its initial finding and has instructed the City to return the assets to the Successor Agency in a timely manner. As of June 30, 2024, the assets have not yet been returned to the State Controller.

Management believes, in consultation with legal counsel, that the obligations of the former redevelopment agency due to the City are valid enforceable obligations payable by the successor agency trust under the requirements of the Bill. The City's position on this issue is not a position of settled law and there is considerable legal uncertainty regarding this issue. It is reasonably possible that a legal determination may be made at a later date by an appropriate judicial authority that would resolve this issue unfavorably to the City.

As of June 30, 2024, there is one obligation that has been denied by the State Department of Finance that is currently being contested through the California court system. The Jurupa Hills Owner Participation Agreement (OPA) has been disallowed due to insufficient documentation to support the outstanding obligation, inability to ever repay the entire debt and the opinion that the agreement appears contrary to public policy. In July 2016, the Courts ruled in favor of the Successor Agency; the State Department of Finance has filed an appeal to the ruling.

After the date of dissolution, the assets and activities of the dissolved redevelopment agency are reported in a fiduciary fund (private-purpose trust fund) in the financial statements of the City.

Cash and investments

Cash and investments reported in the accompanying financial statements consisted of the following:

Cash and investments pooled with the City Cash and investments with fiscal agent	\$ 778,183 19,713,721
	\$ 20,491,904

Loans Receivable

Loans receivable reported in the accompanying financial statements consist of the following:

- 1. A loan was issued for the Oleander Storm Drain on March 2003 in the amount of \$850,429. The balance of the loan at June 30, 2024, was \$850,429. The purpose of the loan was to assist the developer with infrastructure improvements. There is no set repayment schedule for this loan.
- 2. A loan was issued for the Chaffey College in February 2005 in the amount of \$4,000,000. The balance of the loan at June 30, 2024, was \$1,340,000. The purpose of the loan was to assist with the costs of expanding the campus located within the City of Fontana. This loan is scheduled to be repaid over a term of 30 years.
- 3. Various loans were issued for the San Gabriel Valley Water Company in 1988-1989 in the amount of \$330,756. The balance at the loan at June 30, 2024, was \$42,676. The loan represents the reimbursement of costs incurred by the Agency for construction of water infrastructure. This loan is scheduled to be repaid over a forty-year period.

Long-Term Debt

A description of long-term debt outstanding (excluding defeased debt) of the Successor Agency as of June 30, 2024, follows:

Fiduciary Activities	Balance June 30, 2023	Additions	Retirements	Balance June 30, 2024	Amounts Due Within One Year	Amounts Due in More Than One Year

Tax Allocation Bonds

The Former Fontana Redevelopment Agency has issued the following Tax Allocation Bonds which are special obligations of the Successor Agency secured by pledged property tax revenues. The bonds are not a debt of the City and are not payable out of any funds or properties other than those of the Successor Agency.

2017 Tax Allocation Refunding Bonds

\$208,125,000 of 2017 Tax Allocation Refunding Bonds were issued in November 2017. The bonds pay interest semi-annually at rates ranging from 1.50% to 3.00% and mature from October 2018 to October 2036. The proceeds were used to refinance various tax allocation bonds previously issued by the Former Redevelopment Agency of the City of Fontana.

Fiscal Year	2017 Tax	Allocation Refunding Bonds												
Ending	Principal	Interest	Total											
2025 2026 2027 2028 2029 2030-2034 2035-2037	\$ 12,275,000 12,755,000 13,380,000 14,030,000 13,945,000 63,620,000 8,225,000	\$ 6,399,006 5,793,138 5,158,500 4,491,450 3,801,325 9,909,000 792,750	\$ 18,674,006 18,548,138 18,538,500 18,521,450 17,746,325 73,529,000 9,017,750											
Totals	\$ 138,230,000	\$ 36,345,169	\$ 174,575,169											

2018 Tax Allocation Refunding Bonds

\$31,580,000 of 2018 Tax Allocation Refunding Bonds were issued in July 2018. The bonds mature October 1, 2027, with an interest yield of 5.00 percent. The proceeds from the bonds will be used to refinance various tax allocation bonds previously issued by the Former Redevelopment Agency of the City of Fontana for the Jurupa Hills Project Area.

Fiscal Year	2018	Tax Allocation Refundin	ig Bonds					
Ending	Principal	Interest	Total					
2024 2025 2026 2027	\$ 3,655,000 3,840,000 4,030,000 4,230,000	509,000 312,250	\$ 4,351,375 4,349,000 4,342,250 4,335,750					
Totals	\$ 15,755,000	\$ 1,623,375	\$ 17,378,375					

Long-Term Payables to the City of Fontana

The advances between the City and the Former Redevelopment Agency include the following:

- 1. A loan between the Agency and the City which resulted from the amendment to the 1991 Junior Lien Tax Allocation Bonds.
- 2. Advances between the City and the Agency for administrative and other costs.

Payable Under Jurupa Hills Owner Participation Agreement

The Agency has entered into an owner participation agreement (OPA) with Ten-Ninety, Ltd., a private land development partnership (the Participating Owner), relating to the Jurupa Hills Project Area. The OPA requires, among other things, the reimbursement by the Agency to the Participating Owner of costs incurred for certain infrastructure and other improvements. Costs advanced, which accrue interest at 15.5%, are reimbursed from, and limited to: (i) the tax increment revenue generated in the Southridge Village portion of the Jurupa Hills Project Area and (ii) certain fees and assessments collected from benefited property owners.

In January 1992, the City, Agency and Participating Owner entered into two agreements in further implementation of the development of Southridge Village; a Facilitation Agreement and an Amendment No. 3 to OPA and Composite OPA. On March 31, 1992, a judgment was entered by the San Bernardino County Superior Court validating the provisions of these two agreements and declaring them to be legally binding upon the parties.

The Facilitation Agreement provides for specific allocations of costs and responsibilities between the City and Participating Owner with respect to certain public works items and for the discharge of the Participating Owner's obligations and responsibilities with respect to the infrastructure items for Phase I, II and III of Southridge Village.

Amendment No. 3 to OPA includes acknowledgment that the Participating Owner has completed its infrastructure obligations relating to the development of Southridge Village and provides for certain payments by the Participating Owner to the Agency and City, in order to mitigate certain negative fiscal impacts imposed by the development and continued existence of Southridge Village. As described in the agreements, the payments to the City and Agency will be in amounts equal to 35% of the residual tax increments and 50% of the assessments and other reimbursements to be paid to the Participating Owner as reimbursement for public infrastructure improvements installed by the Participating Owner.

The balance at June 30, 2024 does not include \$792,082,611 of accumulated unpaid interest that is subject to the same limitations of reimbursement from tax increment revenue, fees and assessments as is the case for costs of construction advanced. The total reimbursement costs of the project are \$208,168,452. This obligation has been disallowed by the State Department of Finance due to insufficient documentation to support the outstanding obligation, inability to ever repay the entire debt and the opinion that the agreement appears contrary to public policy. This determination is currently being challenged in the California court system by the Successor Agency. A hearing was held in July 2016, in which the courts ruled in favor of the Successor Agency.

Pledged Revenue

The Successor Agency pledged, as security for bonds issued, either directly or through the Financing Authority, a portion of tax increment revenue (including Low- and Moderate-Income Housing set-aside and pass through allocations) that it receives. The bonds issued were to provide financing for various capital projects, accomplish Low- and Moderate-Income Housing projects and to defease previously issued bonds. Assembly Bill 1X 26 provided that upon dissolution of the Redevelopment Agency, property taxes allocated to redevelopment agencies no longer are deemed tax increment but rather property tax revenues and will be allocated first to successor agencies to make payments on the indebtedness incurred by the dissolved redevelopment agency. Total principal and interest remaining on the debt is \$189,872,344 with annual debt service requirements as indicated above. For the current year, the total property tax revenue recognized by the Successor Agency for the payment of indebtedness incurred by the dissolved redevelopment agency was \$35,224,588 and the debt service obligation on the bonds was \$23,104,475.

Insurance

The Successor Agency is covered under the City of Fontana's insurance policies. Therefore, the limitation and self-insured retentions applicable to the City also apply to the Successor Agency. Additional information as to coverage and self-insured retentions can be found in Note 9.

Commitments and Contingencies

At June 30, 2024, the Successor Agency was involved as a defendant in several lawsuits arising out of the ordinary conduct of its affairs. It is the opinion of management that settlements of these lawsuits, including losses for claims that are incurred but not reported, if any, will not have a material effect on the financial position of the Successor Agency.

Note 18 - Tax Abatement

The City occasionally enters into Operating Covenant Agreements (OCA) with local businesses as a mechanism to promote economic development in the City, retain business and create jobs. The City currently has the following OCA's in which the City is granting a portion of sales tax revenues generated back to the retailer as an incentive to continue operating their business in the City:

An operating covenant agreement with a retailer of consumer products to retain their distribution center within the City for a period of no less than 20 years commencing December 15, 2015. The retention of the distribution center will generate substantial revenue, retain and create new jobs, revitalize the City and result in community and public improvements. The City agreed to refund, on a quarterly basis, 50% of sales tax revenues attributable to taxable sales above the first \$50,000 in sales tax revenue received by the City within said quarter.

An operating covenant agreement with an automotive dealership to continue to operate their automobile sales business within the City for a period of up to 12 years or until \$1,800,000 in sales tax revenue is refunded to the dealership commencing January 29, 2020. The operation of business has been determined to result in substantial benefits to the City and its citizens including the creation of new jobs, property tax revenues, sales tax revenues, etc. The City agreed to refund 50% of all sales tax revenue up to a maximum amount of \$1,800,000 with an additional bonus payment of \$240,000 for the dealership's commencement of operations.

An operating covenant agreement with an automotive dealership to continue to operate their automobile sales business within the City for a period of up to 12 years or until \$2,400,000 in sales tax revenue is refunded commencing September 15, 2021. The City has determined the continued operation of the business will result in significant new employment opportunities, property tax and sales tax revenues. The City agreed to refund 50% of all sales tax revenue per year up to a maximum amount of \$2,400,000.

Note 19 - Restatements

Change within the Reporting Entity

During the fiscal year 2024, there was a change within the financial reporting entity which resulted in the Capital Reinvestment Fund and the Future Capital Projects Fund being reported as a non-major funds instead of as a major fund. Additionally, the Grants Fund and Traffic Congestion Relief Fund are being reported as major funds instead of a non-major funds. As such, beginning fund balance was reclassified between major and non-major funds. The effect of the changes to beginning fund balance are shown in the table below.

Correction of Error in Previously Issued Financial Statements

During fiscal year 2024, the City determined that there were certain errors in amounts previously reported in the fiscal year 2023 financial statements resulting in a restatement of the beginning net position and fund balance. The corrections consist of the following:

- (a) The City identified that there were assets within the City's CIP balance that were not properly reported. Accordingly, capital assets as of June 30, 2023, were overstated by \$10,386,566, as shown in column (a) in the table below. The effect of the adjustment to Governmental Activities net position, as of July 1, 2023, is a decrease of \$10,386,566.
- (b) The City identified that there were rental revenues incorrectly recognized in the prior year of \$196,985 and cash incorrectly recorded in the amount of \$757,082 within the City's Housing Authority Fund that required correction. Accordingly, fund balance as of June 30, 2023, was understated by \$560,096, as shown in column (b) in the table below. The effect of the adjustment to Governmental Activities net position, as of July 1, 2023, is an increase of \$560,096. The effect of the adjustment to the Housing Authority fund balance, as of July 1, 2023, is an increase of \$560,096.
- (c) The City identified that there was cash incorrectly recorded within the City's Home Program Fund (Nonmajor Fund) that required correction. Accordingly, fund balance as of June 30, 2023 was overstated by \$757,082, as shown in column (c) in the table below. The effect of the adjustment to Governmental Activities net position, as of July 1, 2023, is a decrease of \$757,082. The effect of the adjustment to the Home Program fund balance, as of July 1, 2023, is a decrease of \$757,082.
- (d) The City identified that the City's OPEB Trust was not recorded in accordance with GASB Statement No. 74 Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. Accordingly, the OPEB Trust Fund activities were added to the fiduciary activities as of July 1, 2023 which resulted in a restatement of \$22,695,094. The prior year was missing amounts related to cash and investments.

During fiscal year 2024, the changes within the reporting entity and corrections of error resulted in adjustments to and restatement of beginning net position and fund balance as follows:

		uly 1, 2023, s Previously Reported	Error Correction (a)		Co	Error prrection (b)	Error Correction (c)		Error Correction (d)			hange within Financial Reporting Entity		July 1, 2023, As restated

Note 20 - Subsequent Events

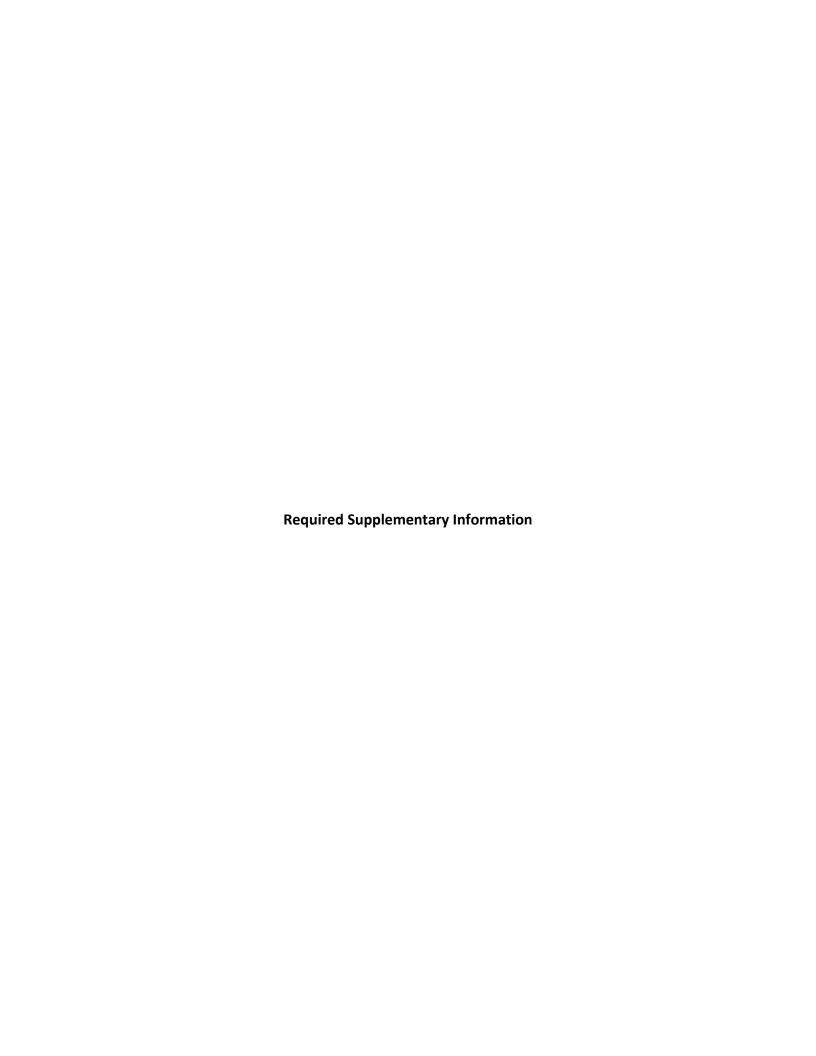

Issuance of Special Tax Bonds

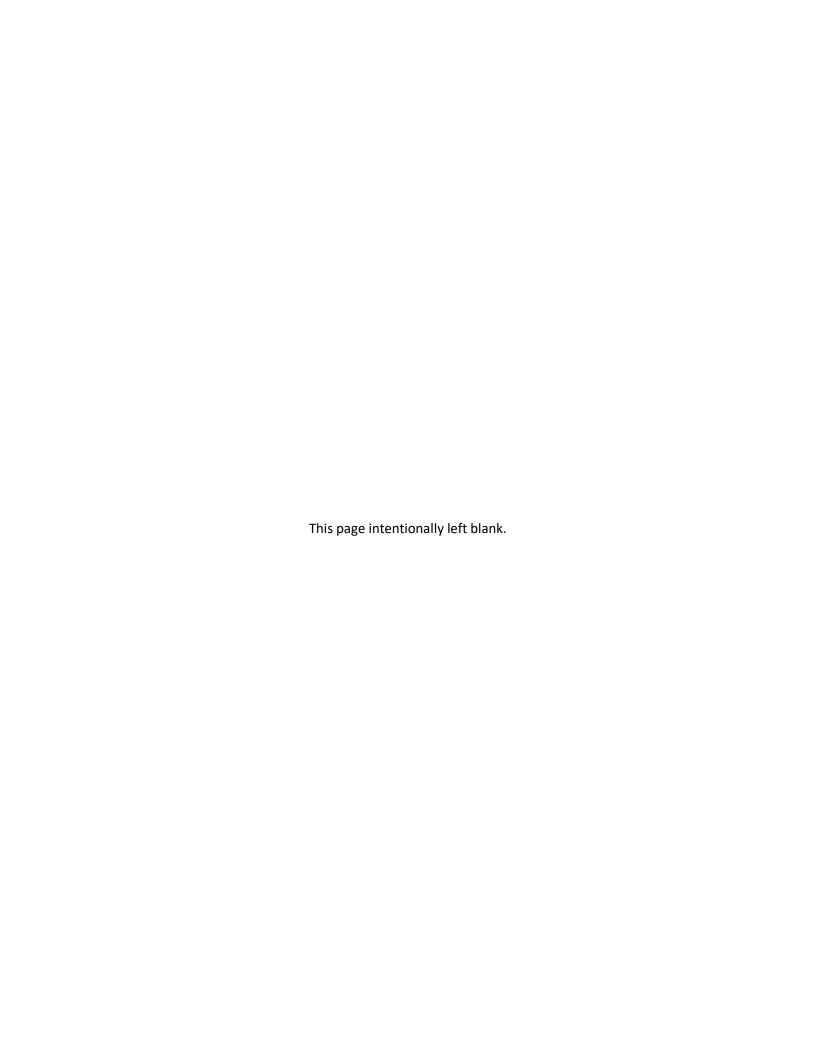

After the fiscal year ended June 30, 2024, the City facilitated the issuance of three new Special Tax Bonds under the Mello-Roos Community Facilities District (CFD) program:

- CFD 107: On July 25, 2024, Special Tax Bonds, Series 2024 were issued in the amount of \$3,595,000 for Community Facilities District No. 107 (Highland) in order to provide financing for the public facilities development.
- 2. **CFD 109**: On October 24, 2024, Special Tax Bonds, Series 2024 were issued in the amount of \$36,220,000 for Community Facilities District No. 109 (Narra Hills) in order to provide financing for the public facilities development.
- 3. **CFD 112**: On November 21, 2024, Special Tax Bonds, Series 2024 were issued in the amount of \$30,790,000 for Community Facilities District No. 112 (The Gardens Phase One) in order to provide financing for the public facilities development.

The bonds are authorized pursuant to the MelloRoos Community Facilities Act of 1982 and are secured by and payable solely from the revenues of an annual special assessment tax levied against land within the Districts. The bonds are not backed by the full faith and credit or taxing power of the City and do not constitute indebtedness of the City. The City is not liable for the bonds, but acts as an agent for the bondholders in collecting the assessments from property owners, forwarding the collections to bondholders and initiating foreclosure proceedings if necessary.

Notes to Schedule:

Benefit Changes: The figures above generally include any liability impact that may have resulted from voluntary benefit changes that occurred on or before the Measurement Date. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the Valuation Date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary In 2022, SB 1168 increased the standard retiree lump sum death benefit from \$500 to \$2,000 for any death occurring on or after July 1, 2023. The impact, if any, is included in the changes of benefit terms. Changes of Assumptions: There were no assumption changes in 2023. Effective with the June 30, 2021 valuation date (June 30, 2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. In addition, demographic assumptions and the price inflation assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The accounting discount rate was 7.15% for measurement dates June 30, 2017 through June 30, 2021, 7.65% for measurement dates June 30, 2016, and 7.50% for measurement date June 30, 2014.

Special Revenue Funds

Special Revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Gas Tax – To account for receipts and expenditures of money apportioned by the State and Highway Code §'s 2103, 2105, 2106, 2107 and 2107.5. Gas Tax moneys can only be used to construct and maintain streets and highways.

Traffic Safety – To account for fines collected on vehicle code infractions and the use of expenditures for traffic safety purposes.

Prop 1B – To account for the receipts and expenditures of money allocated by the Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006, Local Street and Roads Improvement Allocation. Prop 1B moneys can only be used on street improvement projects.

Municipal Services Fiscal Impact – To account for moneys paid by developers of new development projects to mitigate their negative impact on the City's services and General Fund.

Solid Waste Mitigation – To account for moneys paid by the County of San Bernardino to mitigate the use of city infrastructure for refuse disposed at the landfill just outside of city limits.

Road Maintenance and Rehabilitation – To account for receipts and expenditures of money apportioned by the State under the Road Repair and Accountability Act of 2017 for road maintenance and rehabilitation projects for cities and counties.

Home Program – To account for the activity of improving the supply of high-quality multifamily properties which are also available to low income households at affordable rent levels.

Crime Prevention Seizure – To account for the receipt of 1% of Federal seizures from illegal narcotic activities, and the expenditure of such assets to fund crime prevention programs such as DARE.

State Seizure – To account for the receipt of seized assets from illegal narcotic activities obtained through cooperation with State agencies and the expenditure of such assets for local law enforcement purposes.

Federal Seizure – To account for the receipt of seized assets from illegal narcotic activities obtained through cooperation with Federal agencies and the expenditure of such assets for local law enforcement purposes.

TDA / Article 3 – To account for bicycle and pedestrian projects. SBCTA oversees the disbursement of 2% of the Local Transportation Funds (LTF) made available to counties and cities for facilities geared towards the exclusive use of pedestrians and bicyclists.

Housing and Community Development Block Grant – To account for the receipts and expenditures of the City's entitlements under Federal Community Development Block Grant (CDBG) programs of the US Department of Housing and Urban Development (HUD).

Federal Law Enforcement Block Grant – To account for Federal block grant funds used to enhance policing services.

AB 3229 State COPS Program – To account for State grant funds used to enhance policing services.

Office of Traffic Safety – To account for a State grant, matched with local funding, to augment abandoned vehicle towing.

Air Quality Management District – To account for receipts from the South Coast Air Quality Management District used for the purpose of reducing air pollution from motor vehicles.

Down Payment Assistance – To track receipts and expenditures for the HUD first time homebuyer assistance program.

Community Services Reimbursements – To account for after school programs funded through Proposition 49.

ASES ELO-P – To account for funding pertaining to afterschool and summer school enrichment programs for kindergarten (which may include transitional kindergarten) through sixth grade as described in California Education Code (EC) Section 46120.

Fontana Community Foundation – To account for costs associated with the Fontana Community Foundation, a separate legal entity governed by Section 501(c)(3) of the Internal Revenue Code of 1986 for the purpose of aiding and assisting in the implementation, improvement and maintenance of public services that preserve and promote the health and welfare and education of local citizenry of the City of Fontana.

Housing Authority AB 1486 – To account for receipts and expenditures of surplus land disposition proceeds as required for affordable housing under AB-1486.

Permanent Local Housing Allocation – To account for receipts and expenditures of the State Permanent Local Housing Allocation fund that must be used for housing-related projects and programs that assist unmet housing needs in the City.

Fire Protection District CFD – To account for special taxes levied on property developed after January 2, 2001 to finance fire protection and suppression services within the Community Facilities District.

Landscape Maintenance Districts – To account for special benefit assessments levied on property owners for landscape maintenance in various zones throughout the City.

Lighting District #3 - Hunter's Ridge – To account for special assessments imposed on property owners in the Hunter's Ridge area to pay for street lighting.

AB 2928 – To account for receipt of seized assets that were proceeds from or used in illegal activities.

Opioid Settlement – To account for receipts and expenditures of money from Opioid Settlements.

ARPA County – To account for receipts from San Bernardino County for expenditures for enhancements to Veterans Park, Jack Bulik Park, Center Stage Theater and Cypress-Knoph Community.

Community Facilities Districts – To account for special taxes levied on property owners in the development for landscape maintenance, parks and street lighting in the City's numerous special assessments districts.

Debt Service Funds

General Debt Service – To account for debt service payments on general City obligations.

Capital Project Funds

The Capital Project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

Capital Reinvestment – To account for discretionary infrastructure projects.

Future Capital Projects – To account for capital improvement reimbursements from the San Bernardino County Transportation Authority (SBCTA) that is used for general infrastructure improvements throughout the City.

Storm Drain – To account for receipts from drainage fees imposed on developers, for the construction of storm drainage facilities within the City limits.

San Sevaine Flood Control – To account for flood control fees collected for the construction of flood control improvements in the San Sevaine Area.

Upper Etiwanda Flood Control Development – To account for flood control fees collected for the construction of flood control improvements.

Park Development – To account for receipts and expenditures from park development fees for new parks and renovation of existing parks.

Landscape Improvements – To account for landscaping improvement fees used to improve landscaping Citywide.

Library Capital Improvement – To account for developer impact fees used for the construction of library facilities.

Police Facility – To account for development impact fees to fund capital improvements of police facilities and equipment.

Capital Improvements – To account for monies expended on miscellaneous capital improvements.

General Government Improvement – To account for developer impact fees used for the capital construction of City facilities.

Underground Utilities – To account for developer fees used for offsetting the cost of relocating electrical and cable lines underground to enhance the appearance and the safety of the community.

Fire Assessment – To account for revenues from special tax assessments and for expenditures relating to fire prevention and protection.

Affordable Housing Trust – To account inclusionary housing and affordable housing developer impact fees to be used to construct, rehabilitate or subsidize affordable housing that complies with the Affordable Housing Trust Fund regulations.

Fire Protection District – To account for monies expended on capital improvements and equipment replacement for the Fontana Fire Protection District.

Fontana Housing Authority – To account for costs associated with the Housing Authority, a separate legal entity governed by California State Housing Authority law. The Housing Authority uses funds from the Fontana Redevelopment Agency's Low and Moderate Income Housing Fund and Federal Department of Housing and Urban Development Program Grants to actively improve and develop quality neighborhoods and housing opportunities throughout the City of Fontana.

This part of the City of Fontana's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, not disclosures, and required supplementary information says about financial trends, revenue capacity, debt capacity, demographics, and operating information

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	166
Revenue Capacity These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales tax.	172
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current level of outstanding debt and the City's ability to issue additional debt in the future.	176
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.	180
Operating Information These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.	182

Notes: In 1978, the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

⁽¹⁾ In 1978, California voters passed Proposition 13 which set the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.

Source: San Bernardino County Assessor 2014/15 - 2023/24 Tax Rate Table

⁽²⁾ Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners.

⁽³⁾ City's share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the city.

⁽⁴⁾ Total Direct Rate is the weighted average of all individual direct rates for the City of Fontana.

Notes: The amounts presented include City property taxes and Redevelopment Agency tax increment. This schedule also includes amounts collected by the City and Redevelopment Agency that were passed-through to other agencies.

Source: San Bernardino Auditor-Controller's Office

⁽¹⁾ Data provided by the San Bernardino County Assessor's Office for collection of prior year taxes does not segregate the information by fiscal year. Therefore, the City is not able to provide this information in the above schedule.

⁽²⁾ Due to the dissolution of the former redevelopment agency, the property taxes collected in the former project areas are no longer remitted to the agencies. Assembly Bill 1X26 provides that revenues will only be allocated to make payments on the indebtedness; all remaining collections will be distributed to the other taxing entities based on the tax sharing formula.

Note: General bonded debt is debt payable with governmental fund resources and general obligation bonds recorded in enterprise funds

⁽¹⁾ Source: US Census Bureau

⁽²⁾ Assessed value has been used because the actual value of taxable property is not readily available in the State of California.

⁽³⁾ Due to the dissolution of the redevelopment agency on January 31, 2012, total assessed value for the City is no longer reduced by the incremental value of the redevelopment project areas.

CITY DIRECT DEBT			59,057,897
TOTAL DIRECT AND OVERLAPPING DEBT			\$ 702,535,501

Note:

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
