Chair Fort opened Public Hearing.

Salvador Quintanilla, Associate Planner presented the staff report.

The commission and staff discussed Planning Area No. 10 and changes to the project as it pertains to less commercial and more residential. In addition, a brief discussion ensued regarding retail versus industrial. The commission also discussed the number of residential units within this recommended modification. A brief discussion took place regarding the height of the buildings and the reason for the increase in units. Staff also mentioned that the water company had general comments for the project and no opposition. Staff stated that one of the conditions for the sale of the property was to increase the density.

The commission and staff discussed the structure and infrastructure of the development, the increased amount of traffic surrounding this project, and future developments surrounding the area. Furthermore, the commission and staff discussed the Traffic Study for this project, as it pertains to taking in consideration the modifications. The commission discussed the flow through Duncan Canyon Road. Additionally, the commission and staff discussed the parking requirements for this project.

Jose Alire, Traffic Engineer from Urban Crossroads discussed the Traffic Study for the project.
