The following individual spoke in opposition:

- Alree Young

The Public Hearing was closed.

Chair Quintana re-opened the Public Hearing.

Commissioner Keetle commended the project design and inquired about courtyard access, retail uses, and building height impacts. Applicant explained the courtyard will be located above the podium level, accessible only to residents via secure elevator and stair access. Retail space will be leased, with typical uses such as a coffee shop or salon anticipated, and hours will be subject to lease terms. Applicant noted the project design and site grading reduce visual impacts to nearby residences, with several hundred feet of separation and elevation changes.

Additionally, Commissioner Keetle asked for clarification on traffic study numbers and potential impacts on Sultana Avenue. Staff explained the study provided total project peak trip counts (90 a.m. and 121 p.m.) and deferred to engineering for specific Sultana impacts. Commissioner Keetle also asked about crime, and staff noted that development generally reduces crime by increasing activity and visibility in the area.

The City Clerk's Department received one (1) written correspondences in opposition of this item.

Rina Leung, Senior Planner, presented the staff report and noted a memo requesting modification to Condition No. 24 to require stucco and a decorative cap on the existing block wall along the east side of the project.

Commissioner Keetle inquired about parking for the proposed project, including the total number of spaces and requirements for the main units and ADUs. Staff explained that the project provides nine spaces, which meets code due to allowed reductions for long-term bike parking and proximity to a bus stop. Street parking is available to the east and on nearby interior streets, but not directly in front of the project. Staff also confirmed that the project complies with all applicable parking requirements.

Engineer, Doug Andresen, on behalf of the applicant stated that he read and agreed to the amended Conditions of Approval. The Applicant explained that the three-story design is intended to maximize development efficiency and affordability while exceeding parking requirements. The project aims to be visually appealing, complement the community, and provide long-term value.

The following individual spoke in opposition:

- Karla Gutierrez
- David Oei

Commissioner Keetle expressed concern about insufficient parking for ten units, potential traffic near the school, and impacts on nearby residents. Staff noted that the ADUs comply with parking requirements and are not within the discretionary view of the Planning Commission.

Vice Chair Quintana inquired about traffic safety near the adjacent school and whether the traffic study accounted for student crossings. Staff responded that a traffic analysis was completed, showing minimal trips, and noted a condition of approval allowing future traffic restrictions if needed. Vice Chair Quintana also raised a concern about privacy and setbacks. Staff confirmed the setback meets code requirements and explained the inclusion of perimeter landscaping and relocation of the three-story building away from nearby residences.
